At Ratnamani growth is not just a metric—it's a mindset. A mindset rooted in resilience and powered by foresight. Embracing the edge of possibility, Ratnamani Metals and Tubes is charting a course beyond boundaries—where innovations in stainless and carbon steel meet global aspirations.

With each strategic step into new geographies and advanced technologies, the company isn't just scaling operations—it's recalibrating what resilience and relevance mean in a rapidly evolving world.

By syncing with international demand and national priorities, and delivering solutions that power everything from energy infrastructure to industrial transformation, Ratnamani is crafting a narrative of bold adaptation.

More than expansion, this is transformation—of strength, scale, and the standards we set.

Ratnamani isn't just reaching farther—it's redefining the very core of its strength.

we are strengthening our presence in the geography where it matters most, the middle east

We are strengthening our presence in one of the most strategically vital regions—the Middle East.

Through a landmark joint venture with SESCO in Saudi Arabia, we've taken a bold step toward expanding our international footprint. And we didn't pack light.

SESCO brings deep expertise in integrated supply chain solutions for large-scale industries, including Oil & Gas, Petrochemicals, heavy manufacturing, and infrastructure development. Together, our JV aims to deliver critical tubing solutions across the Kingdom of Saudi Arabia (KSA), the wider Gulf Cooperation Council (GCC) region, and selected global markets on an opportunistic basis.

Beyond distribution, the venture will localise manufacturing of seamless products currently imported into the region—strengthening our operational agility, deepening our branding, and enhancing service quality for KSA/GCC customers.

As momentum builds, we are poised to sharpen our competitive edge, elevate brand visibility, and deliver superior value—faster and closer to where it matters most.

Why the Middle East...

Welcome to the oil well of the world—home to over 50% of global reserves and responsible for nearly 27% of global oil production. According to Transparency International (via BP data), this region isn't just sitting on a treasure trove—it's building the roads to transport it.

With ambitious investment surging through the oil and gas pipeline sector, the Middle East is laying down steel arteries to fuel the world. From Iraq's marquee Basrah–Haditha crude oil pipeline to massive natural gas projects across Iran, Saudi Arabia, the UAE, and Turkey, infrastructure is getting a serious upgrade.

Between 2024 and 2028, the region is expected to roll out nearly 150 midstream projects—most of which will be entirely new builds. Translation? This isn't patchwork expansion; it's a bold redesign of how energy moves, directly supporting rising production and fuelling export capabilities. In short, the Middle East isn't just keeping pace—it's setting it. Here lies the opportunities for us.

we are strengthening our future-readiness by creating tomorrow's products

We secured a prestigious export order from Europe for a gas pipeline project. The pipes manufactured for this order are not only compliant for carrying gas but also hydrogen, marking a significant technological milestone. With this achievement, we have become the first company in India to commercially supply pipes compliant for carrying hydrogen, unlocking a significant growth opportunity in the emerging hydrogen economy.

India's commitment to hydrogen energy is a forward-looking strategy that not only promises a cleaner, greener future for the country but also sets an example for the world to take bold steps to combat climate change while securing sustainable economic growth. At Ratnamani, we are preparing to support this energy transition.

Hydrogen: Harbinger of a humungous opportunity.

As the world pivots towards sustainable energy solutions to combat climate change and achieve energy security, hydrogen has emerged as a transformative force in the energy landscape.

The global hydrogen market is projected to grow exponentially in the coming decades, with green hydrogen set to account for 73-100% of total hydrogen demand by 2050.

At the domestic level, India's National Hydrogen Mission (NHM) is a pivotal step towards establishing the country as a global leader in the hydrogen economy. The mission's ambitious objectives include producing at least 5 million metric tonnes (MMT) of green hydrogen annually by 2030, with the potential to reach 10 MMT per annum to meet export demands.

This would require a significant investment in transportation infrastructure. While multiple methods exist for transporting hydrogen, steel pipelines are considered one of the most cost-effective solutions for large-scale distribution of hydrogen.

A COMPREHENSIVE PRODUCT RANGE

Our extensive product portfolio accommodates a broad spectrum of applications, with diameters spanning from a modest 3 mm to a significant 180 inches. This remarkable diversity exemplifies our commitment and capacity to collaborate with exotic materials for specialised applications.

QUALITY AT THE CORE

Quality is central to all our endeavours. Years of experience have informed our solutions, facilitating business transformation and reinforcing our status as a reputable brand. Our unwavering dedication to quality has enabled us to secure product approvals from esteemed corporate brands in India and globally.

A DIVERSE GLOBAL FOOTPRINT

Our exceptional range of products enables us to serve over 20 sectors, including vital industries such as oil and gas, nuclear, defence, and aerospace. Furthermore, our robust presence in domestic markets and extensive global footprint allow us to broaden our growth prospects.

THE POWER TEAM

The experienced management team possesses extensive industry knowledge and a proven track record. Their leadership cultivates innovation and propels organisational growth.

FINANCIAL STABILITY

Our financial strength, defined by our deleveraged position, stable cash flow generation, and strong credit rating, enables us to secure favourable funding from financial institutions. This financial stability, combined with increasing liquidity and strategic capital allocation, allows us to confidently undertake capital-intensive projects that provide substantial returns to all our stakeholders.

Our strengths have enabled us to maintain a steady growth momentum against all odds.

the Chairman's communique

“As we step into FY26, we do so on the strength of a robust foundation. Our strategic focus remains on unlocking sustainable and profitable growth by broadening our manufacturing capabilities and deepening our commercial excellence.”

Dear Shareholders,

It is with great pride that I reflect on our collective journey—a journey defined by continuous growth, enduring resilience, and purposeful innovation. Over the decades, we have navigated through challenging headwinds with unwavering determination, consistently delivering value to our stakeholders and reinforcing our commitment to long-term excellence.

Building on the momentum of the previous year, we continued to reach new milestones. For the fourth consecutive year, Ratnamani delivered record-breaking sales and a robust topline performance notwithstanding the challenges on the demand side, both domestic and international—an achievement that is fast becoming a hallmark of our culture of excellence. This consistent outperformance reaffirms our confidence in the strength of our team and the soundness of our strategy, as we accelerate growth and drive enduring value for all our stakeholders.

Throughout the year, we continued to focus on further strengthening our core business, exploring new frontiers, and setting bold ambitions for long-term sustainable growth. This progress was made possible by the relentless dedication of our employees and the enduring support of our valued business partners, all working in concert to deliver lasting value to our customers and shareholders. Even as geopolitical challenges grew more complex, our unwavering ambition to expand our horizons remained undeterred, reinforcing our commitment to growth with resilience and purpose.

We formalised a joint venture with SESCO in Saudi Arabia—an important step in expanding our international footprint. We have already taken steps to establish a state-of-the-art stainless steel pipe manufacturing facility in the region. Once the work starts, this strategic initiative will not only reinforce our local presence and elevate brand visibility but also position us to serve customers across Saudi Arabia and the broader GCC region with greater agility and precision.

In addition, we are actively exploring establishing a greenfield facility under our subsidiary, Ratnamani Finow Spooling. Once finalised and commissioned, this facility will serve as a key catalyst for growth, elevating our operational capabilities and driving the next phase of performance excellence.

During the year, we increased our stake in Ravi Technoforge from 53% to 80% at an additional investment of ₹33.39 crore as per the agreed terms. Considering the increasing traction of the products, we plan to augment the operational capacity at its facility in the current year, which should enhance its contribution to the Company's growth.

As part of our strategy to deepen our presence in European markets, we entered into a joint venture with Technoenergy AG, Switzerland to help in the initial period. This collaboration led to the establishment of our new subsidiary, Ratnamani Trade EU AG, headquartered in Luzern, Switzerland, marking a significant step in our global expansion journey.

The remarkable initiatives and milestones fill me with pride and gratitude. With multiple new partnerships and expansion projects underway and a positive industry outlook, we are confident in our ability to continue scaling our performance in the years to come.

Though the domestic demand scenario from the sectors we serve, i.e. Oil & Gas and Water distribution continues to be slow and the geo-political issues in Europe and the Gulf Region, continue to impact the global demand also, mainly from the Middle East, looking at the horizon, in the long run, I see considerable opportunities in India and the markets we currently serve.

India is no longer the world's fastest-growing economy only in theory—it is now structurally better positioned than most advanced economies. This marks a fundamental realignment in the global economic order. It's a seismic shift.

Moreover, the global macroeconomic landscape is undergoing a profound transition. Amid a sharp downward revision in U.S. growth forecasts, barring unforeseen events, India is poised to contribute over 15% to global GDP growth between 2025 and 2030, surpassing the combined GDP growth of Japan, Germany, and the entire G7.

India's growth strategy is underpinned by a robust economy, strong governance, and progressive policies. Substantial investments in infrastructure are transforming the nation's physical landscape and driving economic growth.

Diving straight into the primary sectors of our presence, namely oil and gas and water management, there is significant activity being explored, planned, and in progress.

As we enter FY26, our strategic focus remains on unlocking sustainable and profitable growth by expanding our manufacturing capabilities and enhancing our commercial excellence. We are committed to enhancing operating margins, optimising asset utilisation, and seizing emerging opportunities with agility and foresight.

As we move forward with our aspirations, I would like to gratefully acknowledge your continued trust and faith in us and assure you of progressive growth in shareholder value year after year.

Looking ahead, I extend my heartfelt gratitude for your continued trust and support. We remain steadfast in our commitment to delivering progressive, long-term value for our shareholders, year after year.

Warm regards,

PRAKASH M. SANGHVI

the JMD's note on ESG

“We remain committed to initiatives that create meaningful impact for both our internal and external stakeholders.”

Dear shareholders,

At Ratnamani, we continue to focus our efforts on advancing our impact, a positive one, on Environment and Society in general while following best of the Governance practices.

As one of India's leading companies in the steel value chain, we are fully cognisant of our responsibility in addressing climate change. Our growth ambitions are aligned with the need for transitioning to a low-carbon economy and focusing on responsible resource management. Our dedication to sustainability has helped us achieve notable advancements, ensuring we continue on a path of resilient and responsible growth throughout the year.

We are pleased to present our third Business Responsibility and Sustainability Report (BRSR) which outlines our ongoing efforts towards being a responsible business, embedding strong governance, while progressing our decarbonization journey and inclusive growth.

We remain committed to initiatives that create meaningful impact for both our internal and external stakeholders.

Aligned with our vision of a greener future, we have already commissioned around 41 MW of captive renewable energy infrastructure comprising both solar and wind assets. During the year, 42% of our total energy consumption was sourced from renewables.

Beyond decarbonization, we are actively advancing our waste management practices by adopting innovative technologies and processes (e.g. co-

processing of ETP sludge) that help reduce both resource consumption and landfill waste. All of our manufacturing facilities operate as zero liquid discharge units, underscoring our dedication to responsible and efficient water management. During the year, we have reduced our waste intensity (4%) and water intensity (7%) reaffirming our commitment to responsible use of resources.

Ratnamani continues to fund the 'Save the Sparrow' campaign and pond deepening activities in all communities living nearby its operations as part of its ongoing focus on improving biodiversity and natural ecosystems.

The safety and well-being of our workforce also remains our highest priority. Our comprehensive Environment, Health, and Safety policy serves as a guiding framework for the effective implementation of our health and safety management systems. Through this robust approach, we uphold the highest standards of safety and operational excellence across all manufacturing and business operations. As a result, we achieved zero fatalities and a lower Lost Time Injury Frequency rate during the year.

Over the year, we have implemented several employee-centric initiatives focused on both health and safety, as well as engagement and awareness, to foster a more inclusive work culture. We also continue to provide regular training on health and safety, human rights, and skill development to ensure continuous growth and awareness among our workforce.

Beyond the workplace, we remain committed to the upliftment of communities living nearby our plants/

offices through our CSR initiatives — running educational and environmental awareness programs, installation of solar panels, agroforestry and natural capital-focused initiatives aimed at protecting local flora and fauna and expanding access to healthcare and educational infrastructure, particularly in rural areas.

Governance forms the foundation of our ESG framework, ensuring transparency, accountability, and ethical decision-making across all levels of the organization. Our governance structure is designed to uphold the highest standards of integrity, with clearly defined roles, responsibilities, and oversight mechanisms. The Board of Directors, supported by various committees, provides strategic direction and monitors ESG-related risks and opportunities. We maintain strict compliance with all applicable laws and regulations, and continuously strengthen our policies on ethics, anti-corruption, data privacy, and stakeholder engagement. By embedding strong governance practices into our operations, we aim to build long-term value and trust with all our stakeholders.

While we are proud of the progress we have made, we recognize that ESG is a continuous journey — one that requires initiatives, innovation, collaboration, and accountability. Ratnamani remains focused on creating long-term value for all our stakeholders while contributing meaningfully to a more sustainable and equitable future.

Warm regards,

JAYANTI M. SANGHVI

message from the CEO

“We stand at a decisive moment, rich with opportunities and driven by a shared sense of purpose. As we chart our course forward, our unwavering commitment to sustainability, innovation, and inclusive growth guides every step we take.”

Dear Friends,

It is with great pride that I reflect on yet another milestone year of progress and performance.

During the review period, we delivered a strong operational performance, with revenue reaching new highs. This sustained momentum reflects the resilience of our financial foundation and reinforces our positioning for long-term, sustainable growth.

PERFORMANCE

The consolidated Revenue from operations increased by 2.52% from ₹5,059.10 crore in FY24 to ₹5,186.47 crore in FY25, while consolidated EBITDA dipped marginally by 8.99% from ₹970.34 crore in FY24 to ₹883.14 crore. Our consolidated Net Profit also slipped by 13.36% from ₹625.10 crore in FY24 to ₹541.57 crore in FY25.

Consolidated profitability declined due to a confluence of challenges, including softer metal prices, end-use project execution delays and the resulting dip in customer offtake. The shift in order mix—marked by a higher contribution from the water segment in Carbon Steel Pipes, which operates on thinner margins—further weighed on overall performance. In Ravi Technoforge, the ongoing war in Ukraine continued to adversely impact the overseas demand and the lower commodity prices impacted the realisations. However, a robust recovery in the final quarter of FY25 enabled the company to regain momentum and partially offset earlier setbacks.

During the year, we received some interesting orders, which allowed us to further diversify our user sector presence and potentially widen our opportunity horizon.

- We secured a prestigious export order from Europe for a gas pipeline project. The pipes manufactured for this order are not only compliant for carrying gas but also hydrogen, marking a significant technological milestone. With this achievement, Ratnamani becomes the first company in India to commercially supply pipes compliant for carrying hydrogen, unlocking an interesting growth opportunity in the emerging hydrogen economy.

- We also received our first order for Sour Service (transporting Sour Crude) from our customer in the Middle East. This opens up a new opportunity window for improved utilisation of its LSAW plant (Longitudinal Submerged Arc Welded).

- We received sizeable orders for boiler tubing in FY25, which will be serviced in the current year.

- We received our highest orders from the Middle East markets for our Carbon Steel process pipes, which stand as a testament to the superior quality and reliability of our products. This achievement reaffirms our commitment to meeting the most rigorous global standards and reflects the trust we continue to build across international markets.

We concluded the year with a consolidated robust order book of over ₹2,700 crore. Notably, the pipeline includes a healthy share of export orders from Europe, the United States, and the Middle East, underscoring our growing international footprint. In addition, we have submitted bids for several high-potential projects, which are expected to materialise by mid-year.

ONGOING EXPANSIONS

At Ratnamani, two key projects are progressing as planned. Phase I of the spiral welded pipe plant in Odisha is on the verge of successful commissioning, with Phase II expected to commence commercial production by the end of this calendar year. Additionally, production has begun at our stainless-steel cold finishing facility. The ramp-up, however, is anticipated to take another 3 to 6 months to reach optimal capacity.

Expanding beyond domestic borders, we are establishing a stainless-steel pipe facility in the MENA region. Currently, customers in these markets rely on imports for such products. With the commissioning of this facility, we aim to localise supply, enhance responsiveness, and better serve the evolving needs of this large and growing regional market.

While these projects are anticipated to contribute modestly to business growth in the current fiscal year, their full impact will materialise over the longer term, extending into FY27 and beyond.

SUBSIDIARIES

In addition to the aforementioned initiatives, we have outlined capacity expansion plans for our subsidiaries, strategically positioned to reinforce their growth trajectory in the years ahead.

Ravi Technoforge, our ball bearing ring manufacturing business, achieved a robust 11% year-on-year sales growth. Profitability margins remained stable, aligning with last year's performance. Our expansion initiatives are progressing as planned, with capacity enhancements scheduled for completion over the next two years. These will be driven by increased automation and the integration of high-precision equipment, positioning us to serve new customer segments and strengthen our competitive edge.

Ratnamani Finow Spooling Solutions, which currently manufactures spools, hangers, and support components for the nuclear power sector, has gained significant momentum, achieving a turnover of ₹56 crores. Notably, the business now commands a strong order book exceeding ₹600 crores. To support this growth trajectory, we are actively exploring the establishment of a new manufacturing facility that will nearly triple our current production capacity.

We stand at a decisive moment, rich with opportunity and driven by a shared sense of purpose. As we chart our course forward, our unwavering commitment to sustainability, innovation, and inclusive growth guides every step we take. The trust and support of our stakeholders remain our greatest strength, and together, we are poised to shape a future defined by progress, resilience, and enduring values.

Thank you,

MANOJ SANGHVI

corporate social responsibility

Our Corporate Social Responsibility initiatives are not just programs; they are the living embodiment of our values, a testament to our conviction that every action, no matter how small, can ignite a powerful movement. This chapter unveils the tapestry of our efforts, woven with threads of compassion, innovation, and a steadfast dedication to nurturing a brighter, more sustainable future for all. Join us as we explore the transformative impact of our work, from fostering environmental harmony to empowering lives and uplifting communities.

nature conservation & environmental sustainability

Nature Conservation: A Timely Imperative

We believe that even small sparks can ignite powerful movements. Every individual action holds the potential to trigger significant positive change, inspiring widespread growth and amplifying impact. By embracing this ripple effect, we collectively forge a profound difference, nurturing a brighter, sustainable future for all.

EMPOWERING SPARROW CONSERVATION

For years, our dedicated efforts have made us a recognised name in sparrow conservation. Through the distribution of nests and meticulous documentation of new chicks, we have witnessed a remarkable increase in House Sparrow populations. This initiative has successfully blossomed into a nationwide movement, celebrating the profound joy of conservation and fostering deep community engagement.

Conserving nature and biodiversity is paramount for our planet's well-being. Our ongoing efforts yield impactful results, directly benefiting wildlife (including birds, bees, butterflies, and moths), facilitating extensive tree plantation, and ensuring the preservation of vital ecosystems.

SCIENTIFICALLY DESIGNED INITIATIVES

Our conservation initiatives are meticulously planned, rigorously monitored, and carefully controlled to ensure long-term, sustainable benefits. By prioritising nature conservation, we are making a tangible investment in a resilient future for all. The impact of our standalone initiatives is a subject of ongoing research, and their success serves as a case study, inspiring replication with our informal guidance across various locations nationwide, thereby creating a multiplying effect on a larger scale. Our CSR contributions specifically cover water conservation, agroforestry, mass forestation, and the conservation of genetically proven indigenous flora and fauna.

Our commitment to greening the planet is evident in our significant tree plantation drives. As of March 2025, we have planted a total of **3,041 trees** across various locations. This includes **1,160 trees in Bhimasar**, **172 in Indrad - Chhatral**, **82 on Sola - Bavala Road (in collaboration with Sadbhavna Sewa Foundation)**, and a substantial **1,627 trees in Palitana**. These efforts directly contribute to enhancing biodiversity and combating climate change.

For Ensuring Environmental Sustainability, Ecological Balance, Protection of Flora & Fauna, Animal Welfare, Agroforestry, Conservation of Natural Resources, Maintaining Quality of Soil-Air-Water, and Rural Development.

HEALTHCARE & EMPOWERMENT OF THE DIFFERENTLY ABLED

Our unwavering commitment to healthcare access and empowering the differently abled is transforming lives, ensuring dignity and a brighter future. We've deployed a vital **Eye Check-Up Van** to the Health and Care Foundation, a significant investment, bringing crucial vision care directly to communities. Furthermore, we've bolstered essential medical infrastructure by providing a state-of-the-art **Fabius Plus Anesthesia Machine** (Drager) to Rogi Kalyan Samiti in Vadodara and cutting-edge **VIO 300S & DUOENDOSCOPE MACHINES** to GUTS in Ahmedabad. These strategic contributions are not just financial; they are direct investments in advanced medical capabilities, enhancing the quality of life for countless individuals and strengthening the very fabric of community health.

TRANSFORMING LIVES THROUGH MOBILE EYE CARE

Our state-of-the-art mobile eye clinic, '**Drashtirath**', brings hope and clear vision directly to those in need. Equipped with cutting-edge technology, this van has already transformed the lives of over 3,00,000 people in just three months, diligently detecting and treating eye diseases in schools, colleges, and villages. We have also proudly gifted 2,700 pairs of free spectacles, offering a new perspective on life to those who needed it most.

EMPOWERING THE DIFFERENTLY ABLED AND RESTORING DIGNITY

We are dedicated to enhancing the lives of differently-abled individuals through comprehensive initiatives. Our efforts include:

- Organising heartfelt camps to provide custom-made artificial limbs to 199 individuals, unlocking new possibilities. This gesture enables elder beneficiaries to earn their livelihood and regain independence, while children can now attend regular schools, embracing education and growth.
- Providing free mobility aids such as callipers, prosthetic limbs, and customised shoes.
- Donating electric tricycles to earthquake survivors working women, enabling them to commute with ease and live a life of dignity.
- Supporting blind students' schools with solar renewable energy solutions. The operational cost savings directly facilitate free eye surgeries for numerous visually impaired children.
- Promoting education for differently-abled children, equipping them with the knowledge and skills for higher studies and competitive job market participation, enabling them to lead fulfilling, mainstream lives.

EMPOWERING SPECIAL EDUCATION

As a beacon of hope for differently-abled children, we have launched a transformative initiative to provide a classroom for training teachers of paraplegic and mentally disabled children. Addressing the critical shortage of trained educators, this effort will have a profound and lasting impact, benefiting countless children nationwide for years to come by facilitating access to licensed, specialised training.

Education, Orphan Care & Community Welfare

Our commitment to fostering education, providing compassionate orphan care, and enhancing overall community welfare is creating tangible change across various fronts.

Empowering Education & Child Development

We are profoundly dedicated to nurturing young minds and providing foundational support that ignites children's growth and potential. Our commitment shines through initiatives like proudly contributing to the **Armed Forces Flag Day Fund**, enabling the upbringing and education of 27 orphan/single-parent children, offering them a chance at a brighter future. We've significantly boosted educational access by donating a **34-seater school bus** to "VEERAYATAN- Tirthankar Mahavir Vidhya Mandir, Sanchore", bridging distances to knowledge. Furthermore, our investment in foundational learning includes the **construction of a classroom** at "ANKUR SCHOOL FOR MENTALLY RETARDED CHILDREN, BHAVNAGAR" and supporting the **RA Foundation** for the promotion of education for special children in Mumbai, ensuring that every child, regardless of circumstance, has the opportunity to learn and thrive.

COMPREHENSIVE SUPPORT FOR THE DIFFERENTLY ABLED

Our commitment to individuals with disabilities goes beyond support; it's about fostering **holistic care and true empowerment**. We've ensured a nurturing home and educational environment through **residential care for 32 children at the Blind People's Association (BPA)**, further enhancing their learning with **SMART BOARD & EQUIPMENT**. Powering their progress, we installed a 44.69 kW solar rooftop at BPA's Eye Hospital, enabling sustainable operations.

We have restored independence through heartfelt camps, providing **custom-made artificial limbs to 199** individuals and offering crucial mobility aids like callipers, prosthetic limbs, and customised shoes. A powerful testament to this is the **electric tricycle donated to an earthquake survivor**, enabling her dignified commute and livelihood. Recognising a critical need, we've also launched a transformative initiative: providing a **classroom for training special education teachers** for paraplegic and mentally disabled children, building a lasting legacy of skilled educators for countless futures.

ADVANCING COMMUNITY HEALTH INITIATIVES

We are passionately dedicated to enhancing public health and ensuring access to vital medical services where they are needed most. Our impact is tangible: a dedicated **Cancer Detection & Prevention Van** has been successfully donated to the Gujarat Cancer Society, taking crucial early screening directly to the doorstep of communities. We've organised **Widespread Health Check-up Camps in 34 villages**, bringing essential medical services and awareness to remote areas. Furthermore, we've bolstered medical infrastructure by providing an **Anaesthesia Machine** to SSG Hospital Rogi Kalyan Samiti, and consistently deploy **Artificial Limb Transplant Camps** and **Mobile Eye Clinics**, ensuring specialised care reaches those who might otherwise go without.

TARGETED COMMUNITY WELFARE

Our initiatives extend compassionately to address specific community needs, offering direct support and fostering profound resilience. In a truly heartfelt endeavour, we provided essential aid and mobility solutions to **20 working women** who bravely faced leg injuries during the devastating 2001 Kutch earthquake. This singular act of support underscores our deep commitment to those rebuilding their lives.

Collectively, these satisfying initiatives paint a vivid picture of a better life ahead. We are profoundly humbled to serve the marginalised through our ongoing efforts: from empowering blind students' schools with **solar renewable energy** to delivering **cutting-edge healthcare**, supporting **destitute children**, and passionately **promoting education**. Our diverse verticals consistently yield positive outcomes, ensuring every contribution brings us closer to a brighter future for those who need it most, empowering individuals to live fulfilling lives with dignity and seamlessly contribute to the mainstream.

management discussion and analysis

an economic overview

THE ECONOMIC LANDSCAPE

The global economy in FY25 presented a complex tapestry of resilience and uncertainty. Persistent geopolitical tensions exerted downward pressure on investment and sentiment worldwide, influencing overall global growth, which was projected at a modest 3.3% for 2024. Whilst inflationary dynamics eased due to contractionary monetary policies and a softening in energy prices, the proliferation of protectionist measures, particularly from the United States, is projected to weigh on global output, with GDP growth expected to decelerate to 2.8% in 2025. This elevated uncertainty and shifting policy paradigms globally necessitate recalibrated macroeconomic strategies to reinforce economic resilience.

This subdued global economic landscape in Q1 FY25 directly influenced demand patterns for critical industrial and capital goods worldwide, including steel, alloy tubes, and process equipment. This challenging external environment, characterised by mixed trends in key export markets (e.g., US contraction, China's infrastructure-led growth), directly impacted Ratnamani's international operations, particularly within the oil & gas and export-driven industrial segments. Whilst labour market normalisation and easing inflation in advanced economies offered some stability in input costs, geopolitical uncertainties and evolving trade barriers remain key risks for our global ventures, underscoring the direct dependency of our international business on these external factors.

Amidst this global volatility and its ripple effects, India continued to demonstrate remarkable macroeconomic resilience, effectively navigating these external headwinds with robust internal strength. Registering a GDP growth of 6.5% in FY25, following a strong 9.2% in FY24, India's sustained trajectory underscores its structural integrity. This momentum was reaffirmed by rising GST collections, improved consumer sentiment, and a resurgence in manufacturing activity, collectively providing a domestic buffer against global slowdowns. Crucially, India's inflation eased significantly, with retail inflation falling to 4.6% in FY25—its lowest in six years—providing a vital macroeconomic cushion against global price pressures, partly aided by a favourable harvest and government interventions.

India's industrial activity continued its recovery momentum, with the Index of Industrial Production (IIP) growing 3% year-on-year in March 2025. Whilst cumulative FY25 IIP growth (4%) showed some moderation, the manufacturing and services segments remained robust, evidenced by the India Composite Purchasing Manager's Index (PMI) consistently staying above 50 for 44 consecutive months.

Outlook: India's potential growth, estimated between 6.2% and 6.7%, is firmly anchored by an upturn in manufacturing and the accelerating digital transformation of key economic sectors. Crucially, a resurgence in merchandise and services exports is critical for India's ability to fully capitalise on global opportunities and navigate the evolving global trade dynamics. Indicators such as GST collections and automobile sales suggest strong underlying momentum. Furthermore, a significant decline in international oil prices provides an additional macroeconomic cushion for India, directly easing import costs and inflationary pressures that could otherwise stem from global instability. On a larger horizon, India's economic outlook for FY26 hinges on a delicate balance between evolving global trade relations and government efforts to boost domestic consumer demand, meaning its growth trajectory will be shaped by the intricate interplay between domestic stimulus and the prevailing, uncertain global conditions.

India's economy – poised to grow

India's goal of achieving a US\$5 trillion economy by 2024-25 was closely tied to extensive infrastructure development. Central to this vision is the National Infrastructure Pipeline (NIP), an extensive investment initiative valued at over ₹100 lakh crore, covering the period from 2019 to 2025. Among various sectors, the development of pipelines plays a crucial role in enhancing energy security, fostering industrial growth, and optimising supply chain efficiency.

Pipeline infrastructure—spanning oil, gas, water, and other essential resources—directly impacts the nation's ability to industrialise, urbanise, and enhance its economic resilience. As India transitions into a more service-oriented and manufacturing-driven economy, seamless connectivity through pipeline networks will be key to reducing costs, improving logistics, and boosting productivity.

stainless steel

GLOBAL STAINLESS-STEEL SECTOR

The global stainless steel industry remains a cornerstone of modern industrial development, characterised by robust demand growth and widespread application across key sectors. Due to its exceptional corrosion resistance, durability, and aesthetic appeal, stainless steel remains an indispensable material in a wide range of industries, including automotive, railways, infrastructure, construction, transportation, and process engineering.

Global stainless steel melt shop production increased by 7% in 2024 compared to 2023, reaching 62.621 million tons. This surge in demand is fuelled by significant private and public investments

in infrastructure projects and residential construction. The robust demand environment is further supported by technological advancements in manufacturing and the increasing integration of stainless steel in renewable energy systems and sustainability-driven engineering solutions.

The global stainless steel market size was valued at US\$206.91 billion in 2023. The market is projected to grow from US\$216.16 billion in 2024 to US\$320.37 billion by 2032, exhibiting a CAGR of 5.0% during the forecast period.

INDIAN STAINLESS STEEL SECTOR

India's stainless steel industry is poised for significant expansion in the coming years. According to a report by the Indian Stainless Steel Development Association (ISSDA), the nation targets to scale up its stainless-steel capacity to 9.3-9.5 million tonnes by 2030, with ambitions to reach 12.5-12.7 million tonnes by 2040. These bold growth projections are underpinned by expectations of sustained economic development and a corresponding surge in demand.

This anticipated demand is also reflected in the projected rise in India's per capita consumption of stainless steel, which is forecasted to reach 4.5-5.5 kg by FY30. This growth is propelled by the growing utilisation of stainless steel in emerging sectors such as renewable energy, ethanol production, water storage, and other critical industries.

Furthermore, India's rapidly growing stainless steel industry is addressing its crucial nickel needs through a significant increase in nickel pig iron (NPI) and ferro-nickel imports from Indonesia. To further ensure long-term availability, Indian companies are investing in overseas NPI production facilities.

steel pipes and tubes industry

GLOBAL STEEL PIPES AND TUBES INDUSTRY

The global steel tubes market size was valued at US\$83.35 billion in 2024. IMARC Group estimates that the market is expected to reach US\$93.25 billion by 2033, exhibiting a CAGR of 1.24% from 2025 to 2033. Asia Pacific currently dominates, accounting for over 75.6% of global market share in 2024.

The steel tubes market is experiencing steady growth, driven by rapid urbanisation and infrastructure development, particularly in emerging economies. This growth is further supported by a rising global focus on sustainable practices, increased use of recycled materials, and continuous technological advancements in manufacturing processes.

A principal growth driver remains the oil and gas sector, which commands the largest revenue share in the global steel pipes and tubes market. This dominance is expected to persist due to the extensive deployment of steel pipes and tubes in various oil and gas applications.

These applications include Oil Country Tubular Goods (OCTG), which are essential for drilling and extraction, as well as transportation pipelines for crude oil and natural gas. Additionally, process piping is used in refineries to convert crude oil into petroleum products. The International Energy Agency (IEA) forecasts a continued increase in global oil demand, projecting an additional 1.1 million barrels per day (mb/d) in 2025, bringing the total to 103.9 mb/d. This sustained oil demand directly translates to increased exploration, production, and transportation activity, thereby fuelling the demand for steel pipes and tubes.

From a technological perspective, the seamless tubes segment continues to lead, driven by the expanding construction of new transmission pipelines. Seamless pipes, known for their high strength and durability, are critical components in these pipelines. The growing infrastructure development, particularly in emerging economies, is further boosting the demand for seamless tubes.

In parallel, Electric Resistance Welded (ERW) pipes are also witnessing accelerated adoption. The increasing demand for structural steel components, especially in emerging markets, is catalysing the growth of ERW pipe usage in construction, transportation, and industrial applications.

STEEL TUBES MARKET FORECAST

Size, By Product Type, 2024-2033 (US\$ Billion)

INDIAN STEEL PIPES AND TUBES INDUSTRY

The steel pipes and tubes industry is a significant segment of the Indian steel sector.

Leveraging cost-effective production, enhanced productivity, superior quality standards, and a favourable geographical position, India has solidified its standing as one of the world's top three manufacturing hubs for steel pipes and tubes, behind only Europe and Japan, driven by robust domestic and international demand.

The industry solely contributes around 8% of India's steel utilisation. The Indian steel pipes and tubes market is on a robust growth trajectory, with revenue projected to reach US\$17,599.1 million by 2030, reflecting a compound annual growth rate (CAGR) of 5.8% between 2024 and 2030. The oil and gas sector is the dominant revenue contributor within India's steel pipes and tubes industry, significantly propelling its expansion.

This anticipated growth trajectory is underpinned by several strategic and macroeconomic factors expected to sustain and accelerate demand for steel pipes and tubes in the years ahead. The following drivers will support this growth:

Energy Demand Leadership: India's dynamic economic growth and demographic scale are projected to account for 25% of the world's incremental energy needs between 2020 and 2040. As the third-largest oil consumer globally, India is also anticipated to spearhead global oil demand growth between 2023 and 2030.

Natural Gas Expansion Investment: The Government of India aims to elevate the share of natural gas in the country's energy mix from 6.7% to 15% by 2030, presenting an investment opportunity of US\$67 billion.

Refining Capacity Enhancement: To meet growing domestic and global requirements, India plans to expand its refining capacity from 256.8 million metric tonnes per annum (MMTPA) to 310 MMTPA by 2030.

Additionally, significant demand is generated by the expanding construction and manufacturing sectors, which require substantial volumes of steel pipes and tubes for structural and specialised applications.

Stainless steel pipes have considerable traction across industries owing to their durability and superior performance. They are far less vulnerable to corrosion and chemical leaching as they don't absorb components of the materials around them, such as lead or copper. Stainless steel is a superior replacement for plastic plumbing and is steadily becoming the go-to choice for commercial, industrial, and residential real estate projects.

Recently, the Indian government has taken decisive steps to safeguard its domestic industry. India has imposed an anti-dumping duty on imported welded stainless steel pipes and tubes to protect local manufacturers from unfair trade practices. This measure aims to avert the influx of low-cost imports that jeopardise domestic producers and establish equitable market conditions, a step considered essential after investigations confirmed that these products were imported at below-market prices, causing substantial harm to India's domestic industry.

OPPORTUNITIES AND THREATS

OPPORTUNITIES

- A substantial market opportunity is emerging for the stainless-steel industry as India's electric vehicle (EV) market expands, with forecasts from SBI Capital Markets indicating EV sales will comprise 30-35% of total vehicle sales by FY30.
- India's strategic emphasis on durable and sustainable infrastructure, combined with a heightened focus on lifecycle cost efficiency, positions stainless steel as a material of choice. Its inherent resistance to environmental degradation aligns with the government's substantial capital expenditure outlay of ₹11.21 lakh crore (US\$129.4 billion) in the FY26 Union Budget, representing 3.1% of GDP, demonstrating a long-term commitment to infrastructure development.

THREATS

- The Company is susceptible to fluctuations in the prices of raw materials. Any sharp increase in the cost of steel or other essential inputs can adversely affect operational efficiency and financial performance.
- Increasingly stringent environmental regulations aimed at reducing carbon emissions and pollution could increase Ratnamani's operating costs.

Business Division 1 stainless steel, nickel alloy & titanium division

Ratnamani's Stainless Steel Division is a premier manufacturer of high-performance piping and tubing solutions tailored for highly specialised applications, specifically designed to meet the rigorous requirements of critical applications. The division offers an extensive portfolio that includes seamless products made from nickel alloy and stainless steel, as well as welded solutions that incorporate titanium and stainless steel, along with coated stainless-steel pipes.

UNCOMPROMISING QUALITY THROUGH RIGOROUS TESTING

- Ratnamani maintains a steadfast commitment to quality assurance through an exhaustive in-house testing regime.
- Its state-of-the-art Test Laboratories, accredited to ISO 17025, guarantee products meet the highest industry standards.
- Its dedicated seamless tubes and pipes facility features Hot Extrusion Presses for precise Mother Hollow production.

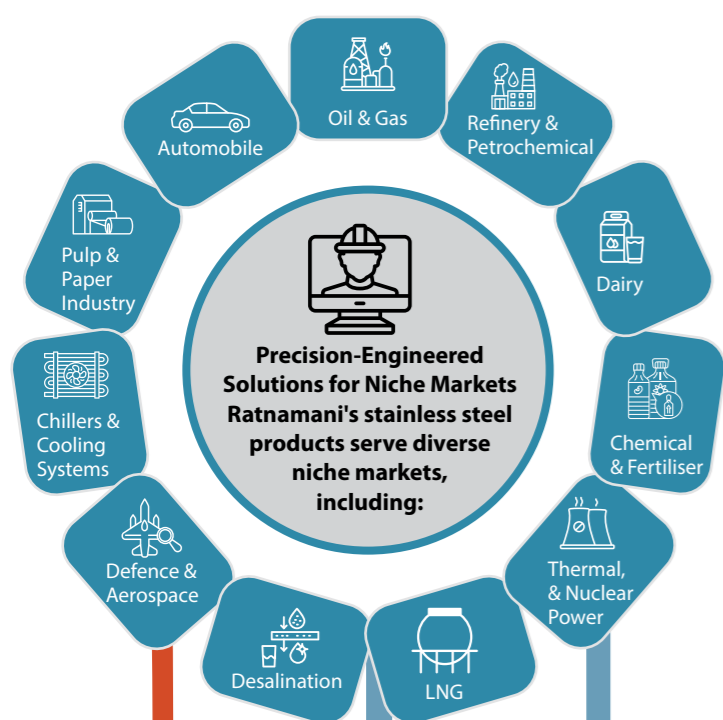

PERFORMANCE IN FY25

The stainless-steel business division continued to expand its global presence and product range, resulting in better utilisation of capacities. The year saw it improving upon its prior year's performance and achieving its best-ever turnover.

The Middle East, specifically Saudi Arabia - Saudi Aramco, SABIC and ADNOC in Abu Dhabi and Qatar, is currently seeing a surge in demand for both stainless steel and carbon steel pipes and tubes due to ongoing expansion/greenfield projects. This regional upswing is primarily driving overall demand, mainly from the oil and gas sector. Ratnamani is well-positioned to capitalise on these opportunities.

The recent increase in stainless steel cold finishing capacity has commenced production, with ramp-up expected to take another 3 to 6 months. This capacity expansion is expected to broaden the division's product portfolio and facilitate entry into newer international markets.

Regarding exports, stainless steel products made a significant contribution to the company's turnover. Of the total exports, approximately one-third is for the MENA region. US exposure is 15% to 20%, with similar figures for Europe. The Company is proactively pursuing approvals in new geographies that align with the scaling of its cold finishing capabilities.

PROSPECTS OF OUR KEY USER SECTORS

Oil & Gas, Petroleum and Refineries Sector

Global: Global oil refinery output is projected to rise substantially, increasing from 81.8 million barrels per day in 2023 to nearly 90 million barrels per day by 2030. Developed regions, such as the United States, Canada, Europe, and the developed Asia-Pacific, are anticipated to experience a decline in refinery output beginning in 2030. In contrast, developing regions, including Asia-Pacific, the Middle East, Africa, and Latin America, are projected to see substantial increases, effectively offsetting the declines in developed nations.

India: By the year 2045, it is projected that India's oil demand will increase twofold, reaching 11 million barrels per day. In the short term, diesel demand is expected to double to 163 million tonnes by the fiscal year 2029-30. Furthermore, it is anticipated that diesel and gasoline will constitute 58% of the nation's total oil consumption by 2045.

Power: Thermal and Nuclear Sector

Global: The year 2025 is expected to represent a transformative period for nuclear energy, with global generation anticipated to achieve an unprecedented peak. The International Energy Agency forecasts an annual growth rate of almost 3% extending through 2026, driven by heightened production in France, the resumption of operations at Japanese facilities, and the activation of new reactors in key markets.

An estimated 299 gigawatts (GW) of new capacity are slated to come online globally over the next few years.

India: The 2025-26 Union Budget reaffirmed India's commitment to nuclear energy, setting an objective to achieve 100 GW of capacity by 2047. This initiative is designed to enhance energy security and diminish reliance on fossil fuels, in alignment with the objectives of Viksit Bharat. The government is facilitating this expansion through strategic policy measures and investments in infrastructure, placing a significant emphasis on the development of indigenous nuclear technology and promoting public-private collaboration.

Fertiliser Plants

India's robust agricultural sector, as the world's second-largest producer of fruits and vegetables, is a key driver for the fertiliser industry. Coupled with government support through direct income schemes, which have increased farmer liquidity and confidence, the industry is poised for significant growth. With a projected CAGR of 4.2%, the Indian fertiliser market is expected to reach ₹1.38 lakh crore by 2032, fuelled by rising agricultural demands and supportive government policies.

Aerospace and Defence

The aerospace and defence market of India is positioned for considerable growth, with projections indicating an increase from US\$27.1 billion in 2024 to US\$54.4 billion by 2033, representing a CAGR of 6.99%. This expansion is driven by significant government investment, highlighted by a defence budget of ₹6,81,210 crores (approximately US\$78.57 billion), reflecting a 9.5% increase compared to the preceding year. Additionally, a capital budget of ₹1,80,000 crores (approximately US\$20.76 billion) further emphasises the government's dedication to modernisation and the domestic production of advanced military equipment, in alignment with the Atmanirbhar Bharat vision.

Business Division 2 carbon steel division

Analogous to the significance of a robust highway network in facilitating the transport of goods, a comprehensive pipeline network constitutes the backbone of a nation's resource distribution ecosystem.

Ratnamani's carbon steel division plays a crucial role within this framework, specialising in the production of pipes that enable this functionality.

The Company is dedicated to the manufacturing of high-quality carbon steel pipes, which include High Frequency-Electric Resistance Welded (HF-ERW) and Submerged Arc Welded (SAW) types. These pipes are meticulously engineered to transport essential resources such as water, oil, and natural gas with optimal efficiency and safety.

Ratnamani's adaptability enables the Company to manage projects of varying scales, seamlessly integrating both small and medium orders into its production processes. By rigorously adhering to international quality standards, the organisation ensures that its pipes meet the requirements of clients worldwide. This steadfast commitment to quality has fostered exceptional customer satisfaction and established trust among clients worldwide.

PERFORMANCE IN FY25

The demand dynamics within the industrial sector for carbon steel, particularly heavy-wall-thickness pipes, remain robust despite muted activity in line pipes. The market is experiencing significant international tender activity in the oil and gas segment, accompanied by a noticeable slowdown in domestic tenders. City gas distribution, primarily reliant on ERW pipes, is currently experiencing slower demand but is expected to recover cyclically.

The order book reflected this dynamic environment, with carbon steel products comprising approximately 70% of the total. Notably, the water segment accounted for around 20-25% of the total revenue derived from carbon steel.

The company is nearing completion of its new expansion project, which focuses on manufacturing pipes with larger diameters and lengths of up to 18 meters, featuring thicknesses of up to 150 mm. Phase I of the Odisha project (spiral welded pipe plant) is on the verge of commissioning, and Phase II is expected to follow by the end of this calendar year. This expansion will significantly enhance the product portfolio to cater to specialised applications. The division is confident that this expanded product range, combined with existing product approvals, industry-leading facilities, and strong financial performance, will ensure sustainable future growth.

The business division demonstrates a strategic focus on capitalising on the strong industrial demand for carbon steel pipes while actively pursuing international oil and gas opportunities.

PROSPECTS OF OUR KEY USER SECTORS

Oil and Gas Transmission Lines

By 2028, Asia is expected to experience substantial growth in its gas pipeline network, with India accounting for over 40% of the region's total pipeline length additions. India is expected to operationalise more than 50 planned and announced pipelines, adding over 26,000 kilometres of transmission pipeline. Notably, around 24,000 kilometres of this expansion comes from pipelines that have already secured necessary development approvals. The upcoming Kandla-Gorakhpur product pipeline is likely to be the longest among all the upcoming pipelines, measuring 2,809 km in length.

City Gas Distribution

India's City Gas Distribution (CGD) market is undergoing significant growth, propelled by robust government support and an increasing emphasis on cleaner energy. The government's objective of achieving 70% population coverage with Piped Natural Gas (PNG) and Compressed Natural Gas (CNG), underpinned by an investment of ₹120,000 crore, is a critical factor driving this expansion. This growth is further facilitated by a favourable gas allocation policy and the enhanced commissioning of urea plants, collectively contributing to the escalating demand for natural gas.

Simultaneously, burgeoning demand for refinery products and the transition to Electric Vehicles (EVs) in public transport are creating parallel growth avenues. The adoption of CNG in private vehicles and LNG in heavy commercial vehicles presents substantial market potential. Recognising this, to fully harness this potential, the government has outlined a plan to invest ₹3 trillion in gas infrastructure over the forthcoming five years. This investment will encompass the establishment of CNG and LNG stations, as well as the development of an extensive pipeline network.

Water & Sewage Infrastructure

According to the World Resources Institute (WRI), India ranks among the most water-stressed countries.

In response to the pressing water-related challenges, India has developed the 5th largest water and wastewater treatment market globally, valued at around US\$11 billion, with projections to surpass US\$18 billion by 2026.

In 2024, the Department of Water Resources, River Development, and Ganga Rejuvenation initiated several key projects and achieved significant milestones to improve water management and secure the nation's water future.

For instance, the National Mission for Clean Ganga sanctioned 39 new projects in 2024 worth ₹2,056 crore. To strengthen the sewerage infrastructure, 12 projects were sanctioned to create or rehabilitate 305 MLD of sewage treatment capacity between January and December 2024.

Overall, 203 sewerage infrastructure projects have been sanctioned in the Ganga Basin, resulting in the creation of 6,255 MLD of sewage treatment capacity and the development of a 5,249 km sewer network.

India has ambitious plans to significantly improve water infrastructure by 2030, including expanding the piped water supply to all households and addressing projected water scarcity. This includes initiatives such as the Jal Jeevan Mission, which aims to provide every rural household with potable tap water. As of August 12, 2024, Jal Jeevan Mission has successfully provided tap water connections to 11.82 crore additional rural households, bringing the total coverage to more than 15.07 crore households, which accounts for 77.98% of all rural households in India. Focused investments for the completion of this project will continue to fuel demand for pipes.

PERFORMANCE OF OUR SUBSIDIARIES

Ravi Technoforge Private Limited (RTL), a Ratnamani subsidiary, achieved its highest-ever sales of ₹287 Crores in FY25, marking a 12% growth over the previous fiscal year, with the March 2025 quarter alone recording a record ₹84.12 Crores in sales. Demonstrating exceptional quality and reliability, RTL successfully cleared the stringent audit for European Railways supplies, paving the way for parts delivery to a prestigious Italian customer after two years of rigorous development and testing. Their commitment to excellence was further recognised globally by Schaeffler, which awarded RTL the "Best Value Supplier" designation for the second consecutive year—a unique distinction for an Indian company among 2,500 worldwide suppliers.

Additionally, SKF India honoured RTL as "Best Quality Supplier" for achieving zero defects in the ring category. RTL also successfully developed and secured approval for 156 new parts in their very first supply lots, expanded its customer base significantly, and initiated series supplies to numerous new plants. Currently, projects worth ₹85 Crores are under implementation, underscoring RTL's robust growth trajectory and operational prowess.

Ratnamani Finow Spooling Solutions Pvt. Ltd. (RFSS), a strategic joint venture, marked its first full financial year (FY25) with remarkable foundational growth, establishing itself as a rising leader in India's nuclear spooling industry. Commencing operations in August 2024, RFSS achieved ₹55 Crores in revenue, successfully executed over 350 metric tonnes of spool and support fabrication (including 273 MT of pipe spools and 75 MT of support structures), and managed robust raw material procurement exceeding 800 MT. Commercially, the company built an impressive order pipeline exceeding ₹650 Crores.

Looking ahead to FY26, RFSS targets ₹250 Crores in revenue, with plans to significantly scale monthly pipe spool production to 100 MT and support production to 30 MT. This expansion is underpinned by ongoing infrastructure development, including a new 30,000 sq. meter shop floor to boost total plant capacity to 4,000 MT/year, and the addition of advanced induction bending capabilities for pipes up to 100mm thickness, reinforcing its vision for high-capacity, precision manufacturing.

financial performance

(Based on standalone Financial Statements)

Ratnamani continues to scale new peaks notwithstanding external turbulence. The Company recorded its highest sales and turnover despite the softness in metal prices and the delay in the execution of certain projects by certain customers.

Revenue from Operations increased from ₹4,807 crores in FY24 to ₹4,876 crores in FY25. However, business profitability slid marginally as EBITDA dropped from ₹921 crores in FY24 to ₹892 crores in FY25. Net Profit for the year stood at ₹578 crores in FY25 from ₹609 crores in FY24.

On the positive side, net cash generation from operations stood at ₹521 crores in FY25, enabling Ratnamani to sustain its Net-Zero

Debt status. The Company has proposed a dividend of ₹14 per share, subject to approval at the ensuing Annual General Meeting.

Shareholders' Fund increased to ₹3,709 crores as on March 31, 2025, against ₹3,221 crores in FY24. The increase was primarily due to the addition of business surplus.

The Company ended the year with an order book of approximately ₹2,100 crore (55% exports, 45% domestic). Additionally, a robust pipeline of jobs is under bidding, both in stainless steel and carbon steel, which provides optimism for sustaining profitable growth in the current year.

Furthermore, the Information Management Policy serves to reinforce the control environment. The systems, SOPs, and controls are subject to review by Divisional Management and are audited by Internal Auditors, whose findings and recommendations are consistently examined and monitored by the Audit Committee.

The Company has adequate internal financial controls in place to ensure the accuracy of its financial statements. These controls were tested during the year, and no material weaknesses in design or operation were identified as reportable. Nonetheless, the Company recognises that any internal financial control framework has inherent limitations, regardless of how well it is designed. Accordingly, regular audit and review processes are conducted to continually reinforce such systems.

The Company has implemented comprehensive systems and procedural guidelines for various business areas, including budgeting, execution, material management, quality, safety, procurement, asset management, and human resources, among others. These systems align with the Company's size and level of operations. Management regularly reviews and upgrades existing systems and processes to adapt to the changing demands of the Company's business.

HUMAN RESOURCE

The Company places paramount importance on the calibre of its workforce, recognising it as the cornerstone of success. Dedicated to empowering employees with the requisite skills to adapt to ever-evolving technological landscapes seamlessly, the Company fosters a culture of continuous learning and growth.

The Human Resource team is at the heart of this commitment and is entrusted with nurturing and retaining the Company's intellectual capital within the dynamic business environment. With a steadfast focus on safety, the Company conducts comprehensive audits of its facilities to ensure the well-being of employees. Furthermore, plant safety committees have been established to diligently monitor and address safety concerns.

Central to its ethos is cultivating a supportive and rewarding work environment where merit is celebrated and a healthy workplace culture is actively promoted.

By investing in the growth and well-being of its employees, Ratnamani creates a workplace where individuals feel valued, motivated, and empowered to contribute their best. This, in turn, drives innovation, enhances productivity, and strengthens the Company's competitive advantage.

As of March 31, 2025, the Company had a workforce of 3,165, supplemented by 2,132 personnel on contractual arrangements.

CORPORATE GOVERNANCE

Ratnamani demonstrates strong corporate governance through comprehensive compliance and transparent practices.

Verification And Compliance

- A secretarial audit, detailed in a supplementary corporate governance report, confirms the Company's adherence to all Listing Regulation requirements.
- The Chairman and Managing Director (CMD) and Chief Financial Officer (CFO) certify the accuracy of the financial statements, the effectiveness of internal controls, and the proper reporting of material matters to the Audit Committee, as mandated by the Listing Regulations.

Governance Framework

- Ratnamani adheres to all applicable laws, listing requirements, and established governance standards.
- The Company has implemented modern governance policies, including those related to related party transactions, Corporate Social Responsibility (CSR), and whistleblower protection, all of which are accessible on its official website (www.ratnamani.com).
- A robust whistleblower mechanism enables directors and employees to report legitimate concerns confidentially and securely.
- Detailed corporate governance information is provided in the annexed corporate governance report.

Core Principles And Commitment

- Ratnamani's corporate governance philosophy is founded on conscience, transparency, fairness, professionalism, and accountability.
- These principles are reflected in the Company's systems, procedures, regulations, and values.
- Ratnamani is committed to upholding the highest standards of corporate governance and prioritising public interest in its operations.
- A network of policies, codes of conduct, charters, and established committees ensures sound governance that aligns with legal requirements.
- The Companies Act 2013 and SEBI Listing Regulations have collectively strengthened India's governance landscape, of which Ratnamani is a participant.

INTERNAL CONTROL SYSTEM AND ITS ADEQUACY

The Company's Corporate Governance Policy serves as a guiding framework for our conduct and that of the Management, encompassing financial and accounting policies, systems, and processes. This policy clearly delineates the roles, responsibilities, and authorities associated with each level of the Company's three-tiered governance structure, as well as the key functionalities engaged in governance.

The Corporate Governance Policy and the Code of Conduct are effectively communicated throughout the Company. The organisational strategies, planning, review processes, and risk management framework establish the foundation for internal financial controls pertinent to the Company's financial statements, which are fundamental to significant accounting policies.

These policies are meticulously curated by the Management and sanctioned by the Audit Committee as well as the Board.

Furthermore, they are reinforced by corporate accounting and systems policies applicable to the entity, thereby implementing the principles of corporate governance and essential accounting policies consistently throughout the Company.

The accounting policies are subject to regular review and updates. These policies are underpinned by a comprehensive set of divisional policies and Standard Operating Procedures (SOPs) established for individual businesses.

The Company employs an Enterprise Resource Planning (ERP) system to facilitate business operations and diligently maintains its accounting records. The SOPs, in conjunction with the transactional controls integrated within the ERP systems, ensure the appropriate segregation of duties, implement tiered approval mechanisms, and maintain the necessary supporting documentation.

key risks and their mitigation strategy

Ratnamani has implemented a comprehensive and meticulously structured risk management system to ensure its long-term viability and sustained success. This framework is a proactive and integral component of the Company's strategic planning. It is designed to anticipate and address potential challenges before they materialise, thereby minimising disruptions and maximising opportunities. By rigorously monitoring and managing these risks, the Company ensures it can:

- Protect stakeholder value
- Achieve its strategic goals
- Drive sustainable business expansion

Cyclical Risk

The stainless steel industry experiences cyclical demand, which is directly influenced by the overall health of the economy.

Mitigation Measures

- Ratnamani's business has two counter-balancing segments, providing resilience against downturns in specific user industries. This strategic diversification enables the Company to grow even when facing challenges in particular market segments.
- Ratnamani maintains a balanced presence in the stainless steel market, operating in both domestic and international markets. This geographical diversification partially mitigates the risks of cyclical fluctuations in any regional market.

Competition Risk

The competitive landscape of the stainless steel tube and pipe market poses a risk to Ratnamani's market position.

Mitigation Measures

- Ratnamani invests in research and development to create value-added products, distinguishing itself from competitors.
- The Company prioritises superior customer service, offering technical support, timely deliveries, and flexible order fulfilment.
- The company's massive product portfolio of impeccable quality enables it to stand out among its peers.

Environment Risk

Reduction in carbon footprint has become mandatory for strengthening its position in the global market.

Mitigation Measures

- Ratnamani has invested in captive renewable energy infrastructure, including solar and wind assets. This helps to reduce their reliance on conventional power sources and mitigate the risks associated with power supply disruptions or fluctuations.
- The Company implements "Zero Liquid Discharge" facilities at its plants, demonstrating a commitment to responsible water management. This minimises water waste and maximises reuse.

Regulatory Risk

Failure to comply with evolving regulations or any deviation from compliance can negatively impact the Company's reputation.

Mitigation Measures

- Ratnamani employs robust legal compliance management systems to ensure thorough awareness and adherence to regulations.
- The Company leverages technology to track compliance and timelines, including appropriate escalation procedures, action plans, and review processes.

Currency Fluctuation Risk

Foreign exchange fluctuations could impact profitability.

Mitigation Measures

- Ratnamani utilises foreign exchange hedging policies to minimise risks related to currency fluctuations, thereby stabilising import and export costs.
- The Company utilises financial instruments, such as interest rate swaps, to mitigate the impact of fluctuating interest rates and inflation on its borrowings, thereby contributing to stable financing costs.

Funding Risk

Adequate funds are an absolute necessity for business growth.

Mitigation Measures

- The company's low debt-to-equity ratio enables it to secure adequate financial resources when needed.
- Its prudent cash management strategy has allowed it to fund capital investment through internal accruals, increasing the Company's cash flow (post-commissioning of the facility).

- c) With New U-Bend SR-2 Transformer, 76V, 5000A, it has increased the production capacity and enhanced the productivity.
- d) With the New PLC base panel & HMI at UBM, it has reduced the breakdown and increased the productivity.
- e) New ECT unit has enhanced the capacity up to 8" and increased the productivity.
- f) Modification of trolley which has reduced the manpower and enhanced the facility.
- g) Modification of Tube Mill, re-coiling unit which has enhanced the re-coiling facility & quality of re-coiling.
- h) Manufacturing of 24" pipe welding system, which has enhanced our production capability for producing 24" pipes without filler.

At Kutch plant – Carbon Steel division – Spiral and Coating plant:

- a) With the Installation of new seam normalizer (500 KW / 3 KHz) in the ERW plant, System and process improved for the smooth operations and reduced the maintenance costs, and an automatic orbital seam tracking system to ensure uniform seam heating, meeting upcoming order requirements and enhancing product quality.
- b) With the installation of pressure transducer, it prevent damage of hose pipe & avoid pipe rejection, increased productivity by reducing plant stoppage & actual pressure monitoring with low pressure alarm.

- c) Replacement of screw and barrel assembly to improve the machine reliability and smooth operation, it has increased the productivity and reduced the maintenance cost.
- d) By installing the VFD in hydraulic power pack, two set point speed operation applied and saved energy consumption with better motor and gear box life.
- e) By installing the VFD in cranes, jerk has been eliminated and smooth operation achieved with better motor and gearbox life.
- f) With the modified tank design and electrical heaters, the life of the electrical heaters improved & maintenance cost is reduced, flux uniformly heated & minimized the air pollution due to modified tank during flux transfer.
- g) With the installation of intelligent air flow control, it has reduced 4% energy cost, improved pneumatic equipment performance and reduced maintenance cost of the Air Compressor.

At Chhatral plant:

- a) Installation of OD seams tracking system at the external welding to improve welding quality & compliance with Export orders.
- b) Installation of New Hydraulic system at the Pipe Forming press for plate marking setting during the pipe forming process.
- c) Installation of New 10 MT Magnetic Lifter at Plate yard Flame Cutting Machine for safe & easy operation, it has reduced the Manpower & increased the productivity.
- d) Installation of New 5 MT Magnetic Lifter at Cutting Section Crane for safe & easy operation, it has reduced the Manpower & increased the productivity.
- e) Installation of 3 Radio remote system for flame cutting Torch up/dn, Forming Press Cylinder up/dn function and pipe End bevelling machine, Pipe Centering Position Purpose as well as safe & easy operation, it has reduced the Manpower & Maintenance as well as increased the productivity.
- f) Installation of Dust Collector on Crimping Press for Plate cleaning as well as to increase the quality of Pipe.
- g) Installation of PLC Based Fully Automatic Pipe End Bevelling Machine for increased capacity and quality of pipe as well as increase productivity up to 50 pipes/shift.
- h) Installation of Timer system on Crimping Press for hydraulic power pack motor automatically switched off in idle condition after 30 second, for energy saving.

- i) Installation of Auto UT Pipe Handling Conveyor system with Radio Remote for safe & easy operation, it has reduced Manpower & Maintenance as well as increased the Productivity.
- j) Edge Milling Machine in hydraulic power pack system modified with Star-Delta Panel to improve the hydraulic speed & plate Clamping Capacity.
- k) Installation of Laser Distance Sensor - 2.5 Meter for Weigh Bridge vehicle to pipe stuck for safety purpose.
- l) Installation of PLC Based Fully Automatic Ultrasonic testing for increased capacity and quality of pipe and productivity up to 50 pipes/ shift.

At Indrad plant:

- a) Installed Pilger with automisation of Pipe Pilgering of size from 88.9 mm to 168.3 mm
- b) Installed HP Horizontal brushing arm for auto container cleaning operation in the Extrusion Press.
- c) Implementation / automisation in the input-output conveyor for the increase of Pipe testing feasibility in Eddy current testing.
- d) Installed HMI at cooling bed area to fetch the run-out pipe logged data automatically in horizontal press SCADA screen.
- e) In house prepared and installed, Coiler Pilger mill for the coiling tube size of 12.7 mm to 25.4 mm with fully automation, to increase the production capacity.
- f) New High-speed OD & ID Bevelling CNC Machine installed for the pipe sizes of 2 inch to 10 inch.
- g) Installed Online Vibration Monitoring system with PLC & HMI to prevent major breakdown in the pilger mills for automisation.
- h) In house modified the Pilger mills by changing the hydraulic system to servo motor system for auto tube loading and unloading with the pilgering process for increase in the production capacity of instrumentation tubes.

III. In case of imported technology (imported during the last three years reckoned from the beginning of the financial year)

- 1) Bright annealing furnace for tube bright annealing process in pilger Coiling shed of SS Indrad plant.
- 2) Coil to Coil Bright Annealing machine for coil tube Bright annealing process in pilger coiling shed of SS Indrad Plant.
- 3) Hydrogen Generator for Bright annealing furnace in pilger coiling shed of SS Indrad plant.

- 4) SS Tube Coil OD & ID Degreasing Machine for Coil tube degreasing process in SS Indrad plant.
- 5) Fully Automatic UT Testing Machine for Pipe testing at Chhatral Plant.

IV. The expenditure incurred on Research and Development.

During the year under review, Rs.1.52 Crores of expenditure had been incurred in the Research and Development activities.

(C) Foreign exchange earnings and Outgo-

EVALUATION OF THE BOARD'S PERFORMANCE:

As required, a formal mechanism for evaluating performance of the Board and that of its Committees and individual Directors, including the Chairman of the Board has been set in place by the Board.

Pursuant to the provisions of Regulation 17(10) of the SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015 and the provisions of the Companies Act, 2013, an Annual Board Effectiveness evaluation is conducted to evaluate an Annual Performance Evaluation of the Board's own performance and the directors as well as Committees of the Board. The Board's performance was evaluated based on inputs received from all the Directors, Board's composition and structure, effectiveness of the Board, performance of the Committees, processes and information provided to the Board, etc.

The performance evaluation is based on performance of the Company, including financial, vis-à-vis the market conditions, its peers, global market conditions, its installed capacities, etc. vis-à-vis performance of an individual Director.

The Chairman of the Board have one-on-one meeting with the Independent Directors and the Chairman of NRC have one-on-one meeting with the Executive Directors. These meetings are intended to obtain Directors' inputs on effectiveness of the Board / Committee processes.

Performance of individual Directors has been evaluated considering their skills, knowledge, expertise, competencies, acquaintance with business, their attendance, level of preparation and effective participations in the discussions of meetings, communication *inter-se* between the board members, contribution at the meetings and otherwise, guiding the management on the CAPEX and other budgetary proposals, risk management, independent judgment, safeguarding of interest of all the stakeholders, Compliance with code of conduct and understanding their role as a director of the Company as a whole, etc.

The meeting of Independent Directors is convened in accordance with the provisions of Section 149(8) read with Schedule IV of the Act and Regulation 25(3) and 25(4) of the SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015, mainly to review the performance of Chairman & Managing Director, Joint Managing Director, Whole Time Directors and also the Board as a whole for Financial Year 2024-25 and assessed the quality, quantity and timeliness of the flow of information between the Management and the Board. All Independent Directors were present at the said meeting.

Likewise, the performance evaluation of the Independent Directors, the Chairman and the Non-Independent Directors is carried out by the Board. The criteria for performance evaluation of Independent Directors are their knowledge, expertise in their fields, contribution in important decision making in the Board and Committee Meetings based on the content of evaluation forms. The Independent Director, who is subject to evaluation, does not participate in the evaluation process carried out by the Board of Directors. The Directors were satisfied with the evaluation results, which reflected the overall engagement of the Board and its Committees with the Company.

In the opinion of the Board of Directors of the Company, all the Independent Directors have adequate expertise, experience, proficiency and integrity.

Board Meetings, Committee Meetings and Procedures

In terms of Regulation 17 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and as required under the Companies Act, 2013, the Board meets at least once in a quarter with a gap between two meetings not exceeding one hundred and twenty days. Additional meetings of the Board are held when deemed necessary to address the specific needs of the Company.

The tentative dates for Board Meetings in the ensuing financial year are decided well in advance at the Board Meeting itself. The meetings are usually held at the Company's Corporate Office. In case of business exigencies or urgency of matters, resolutions are passed by circulation by Board as well as Committee of Board of Directors.

The agenda papers along with supporting papers, if any, for consideration at the Board and Committee Meetings are circulated to the Directors in advance. Adequate information is circulated as part of the Board and Committee agenda papers and is made available at the Board and Committee Meetings to enable the Members of the Board and Committees to take significant decisions. Senior Management are invited to attend the Meetings as and when required. The Company is also providing video conferencing facility to Directors on his/her request in advance. The Chairperson of each Committee briefs the Board on significant discussions at the committee meeting.

The Company ensures compliance of various statutory requirements by all its business divisions and obtains quarterly reports in the form of certificates from the heads of the business divisions and functional heads. These certificates are placed before the Board and/or Committee on quarterly basis. The Board of Directors reviews the Compliance Reports pertaining to the applicable laws and takes steps to rectify the instances of non-compliances, if any.

Other provisions as to Board and Committees were complied with during the year under review.

2. BOARD COMMITTEES

The Board Committees play a vital role in strengthening the Corporate Governance practices and focus effectively on the issues and ensures expedient resolution of the diverse matters. R. Commodity Price Risk or Foreign Exchange Risk and hedging activities:

The Company's Risk Management Committee oversees key business risks, including Commodity Price Risk and

Foreign Exchange Risk, and is responsible for framing and reviewing the Company's risk mitigation and hedging policies.

To manage commodity price risk, the Company generally follows a back-to-back procurement strategy, whereby raw materials such as carbon-steel and stainless-steel are procured against majority of the confirmed customer orders. The extent of not opting for 100% back-to-back procurement in some cases is determined based on management's judgment, taking into account prevailing market conditions, price trends, and sensitivity to volatility. This allows the Company to optimize procurement while maintaining an effective hedge against significant price fluctuations. The Company does not have material exposure to commodities outside its core operational requirements.

In managing foreign exchange risk, the Company has adopted a robust Foreign Exchange Risk Management Policy, which sets out the framework for identifying,

measuring, monitoring, and mitigating currency risks. To hedge against foreign exchange fluctuations, the Company uses mainly forward contracts and, in some cases, futures/options, in accordance with the limits and guidelines defined in the policy. These controls ensure that derivative exposure remains within the Company's approved risk appetite and regulatory requirements.

The Audit Committee and Board of Directors are periodically briefed on the Company's foreign exchange exposures and hedging strategies. In addition, a periodical foreign exchange report, including details of outstanding exposures and derivative positions, is submitted to the Chairman and Managing Director for continuous oversight.

All other business risks are discussed in detail in the Management Discussion and Analysis section of the Annual Report.

independent auditor's report

To the members of **Ratnamani Metals and Tubes Limited**

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of Ratnamani Metals and Tubes Limited (the "Company"), which comprise the Balance Sheet as at March 31, 2025, the Statement of Profit and Loss (including Other Comprehensive Loss), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and notes to the standalone financial statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as 'standalone financial statements').

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (the "Act"), in the manner so required, and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025 and its profit, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matter described below to be the key audit matter to be communicated in our report.

Sr. No.	Key Audit Matter	Auditor's Response
1.	<p>Recoverability of Trade Receivables</p> <p>Year-end outstanding trade receivables represent balance outstanding from domestic and export customers. Trade receivables by nature carry certain risks in general which include overdue balances, customers in weaker economic and geopolitical environment, customer's ability to pay, provision in relation to expected credit loss, assessment of recovery process and compliance with risk management controls. Procedures to mitigate such risks include element of management judgement and are important to assess recoverability of trade receivables. Trade receivables has been considered a key audit matter in the audit due to size of the outstanding balances of trade receivables amounting to ₹ 1,29,280.95 lakh (Refer Note 06 of Standalone Financial Statements)</p>	<p>Our audit procedures among the other things, included the following:</p> <ul style="list-style-type: none"> ➤ Understood and tested on a sample basis the design and operating effectiveness of management control over the customer acceptance process, collection and the assessment of the recoverability of receivable. ➤ Tested on a sample basis the ageing of trade receivables at year end. ➤ In respect of material trade receivables, inspected relevant contracts and correspondence with the customers. ➤ In respect of material trade receivables balances which are past due, additional procedures were performed to evaluate their historical payment trends, terms & conditions of customer contracts, assessed whether the customers are experiencing financial difficulties and assessed expected credit loss assessment provided and impact considered by the management. ➤ Assessing the reasonability of judgments exercised and estimates made by management in recognition of these receivables and validating them with corroborating evidence. ➤ Compared the collateral in the nature of bank guarantee/letter of credits provided by customers. ➤ Obtained confirmations from customers on sample basis to support existence assertion of trade receivables. ➤ Evaluated the level of provisions made by management for trade receivables.

Independent Auditor's Report

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Board's Report including Annexures to the Board's Report, Management Discussion and Analysis, Business Responsibility and Sustainability Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditors' report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to communicate the matter to those charged with governance as required under SA 720 'The Auditors' responsibilities relating to other Information'. We have nothing to report in this regard.

Management's responsibility for the Standalone Financial Statements

The Company's management and Board of Directors are responsible for the matters stated in section 134(5) of the Act, with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, including total comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Ind AS specified under section 133 of the Act and the rules thereunder, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable,

matters related to going concern and using the going concern basis of accounting unless management or Board of Directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's responsibilities for the audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion.

Independent Auditor's Report

Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, make it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements for the financial year ended March 31, 2025 and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other legal and regulatory requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ('the Order'), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the 'Annexure A', a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2. As required by section 143(3) of the Act, based on our audit, we report that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- (c) The Balance Sheet as at March 31, 2025, the Statement of Profit and Loss (including Other Comprehensive Loss), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended dealt with by this Report are in agreement with the books of account.
- (d) In our opinion, the standalone financial statements comply with the Ind AS specified under section 133 of the Act and the Rules thereunder, as amended.
- (e) On the basis of the written representations received from the directors as on March 31, 2025, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2025, from being appointed as a director in terms of section 164(2) of the Act.
- (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company with reference to the financial statements and the operating effectiveness of such controls, refer to our separate Report in 'Annexure B' to this report.
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of sub-section (16) of Section 197 of the Act, as amended, we report that to the best of our information and according to the explanations given to us, remuneration paid by the Company to its directors during the year is in accordance with the provisions of Section 197 of the Act.
- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - (i) The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements. Please refer Note No. 28(b).

Independent Auditor's Report

- (ii) The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts.
- (iii) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
- (iv) (a) The management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - (b) The management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in aggregate) have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
- (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us

to believe that the representations under sub-clause (i) and (ii) of Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as provided in (a) and (b) above, contain any material misstatement.

- (v) The final dividend paid by the Company during the year in respect of the same declared for the previous year is in accordance with the section 123 of the Act to the extent it applies payment of dividend.

As stated in Note 10 to the standalone Ind AS financial statements, the Board of Directors of the Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The dividend declared is in accordance with section 123 of the Act to the extent it applies to declaration of dividend.
- (vi) Based on our examination, which included test checks, the Company has used an accounting software for maintaining its books of account for the financial year ended March 31, 2025 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with. Additionally, the audit trail has been preserved by the Company as per the statutory requirements for record retention.

Annexure A to the Independent Auditor's Report of even date on the Standalone Financial Statements of Ratnamani Metals and Tubes Limited

(Referred to in paragraph 1 under 'Report on other legal and regulatory requirements' section of our report of even date to the members of Ratnamani Metals and Tubes Limited)

To the best of our information and according to the explanations provided to us by the Company and the books of accounts and the records examined by us in the normal course of audit, we state that:

(i) In respect of the Company's Property, Plant and Equipment and Intangible Assets:

(a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment and the relevant details of right-of-use assets.

(B) The Company has maintained proper records showing full particulars of intangible assets.

(b) The Company has a program of physical verification of Property, Plant and Equipment, so as to cover all the assets every year which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the program, Property, Plant and Equipment due for verification during the year were physically verified by the management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.

(c) Based on our examination of the property tax receipts and lease agreement(s) for assets on lease, registered sale deed/ transfer deed/ conveyance deed provided to us, we report that, the title in respect of self-constructed buildings and title deeds of all other immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee), disclosed in the standalone financial statements included under Property, Plant and Equipment are held in the name of the Company as at the balance sheet date.

(d) The Company has not revalued any of its Property, Plant and Equipment (including right-of-use assets) and intangible assets during the year.

(e) No proceedings have been initiated during the year or are pending against the Company as at March 31, 2025 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.

(ii) (a) Physical verification of inventory has been conducted at reasonable intervals by the management and in our opinion, the coverage and procedure of such verification by the management is appropriate. No discrepancies of 10% or more in the aggregate for each class of inventory were noticed on such verification.

(b) The Company has been sanctioned working capital limits in excess of five crore rupees, in aggregate from banks on the basis of security of current assets. The quarterly returns/statements filed by the Company with such banks are in agreement with the books of account of the Company.

(iii) The details required to be indicated as per clause 3(iii) of the Order, are as under:

(a) During the year the Company has not provided advances in the nature of loans or provided security to companies, firms, Limited Liability Partnerships or any other parties. Further, during the year the Company has made investments, stood guarantee and granted loans to companies as follows:

	(₹ in lakhs)	
	Loans	Guarantees
Aggregate amount granted/provided during the year		
Subsidiaries	7150.00	9566.75
Balance outstanding as at the Balance Sheet date in respect of the above cases		
Subsidiaries	4600.00	1343.64

(b) Investments made, guarantees provided and the terms and conditions of the grant of the loans during the year are, in our opinion, prima facie, not prejudicial to the Company's interest.

(c) In respect of loans granted by the Company, the schedule of repayment of principal and payment of interest has been stipulated and the repayments or receipts are regular.

(d) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there is no overdue amount for more than ninety days in respect of loans given.

(e) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there is no loan given falling due during the year, which has been renewed or extended or fresh loans given to settle the overdues of existing loans given to the same parties.

(f) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not granted any loans either repayable on demand or without specifying any terms or period of repayment during the year. Hence, reporting under clause 3(iii)(f) of the Order is not applicable.

Independent Auditor's Report

(iv) The Company has complied with the provisions of sections 185 and 186 of the Act in respect of grant of loans, making investments and providing guarantees and securities, as applicable.

(v) The Company has not accepted any deposits within the meaning of Sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, reporting under clause 3(v) of the Order is not applicable to the Company.

(vi) We have broadly reviewed the books of account maintained by the Company pursuant to the rules made by the Central Government for the maintenance of cost records under section 148(1) of the Act, and are of the opinion that prima facie, the specified accounts and records have been made and maintained. We have not, however, made a detailed examination of the same.

(b) The details of statutory dues referred to in sub-clause (a) above which have not been deposited as on March 31, 2025 on account of disputes, are given below:

Name of the Statute	Nature of the Dues	Amount (in lakhs)	Period to which the amount relates	Forum where dispute is pending

Income Tax Act, 1961	Tax and Interest	79.19	A.Y. 2023-24	Commissioner of Income Tax (Appeals)

(viii) There were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessments under the Income-tax Act, 1961 (43 of 1961).

(ix) (a) The Company is regular in repayment of loans or other borrowings or in payment of interest thereon to lenders.

(b) The Company has not been declared wilful defaulter by any bank or financial institution or government or government authority.

(vii) In respect of statutory dues:

(a) In our opinion, the Company has generally been regular in depositing the undisputed statutory dues including Goods and Services Tax, provident fund, employees' state insurance, income-tax, duty of customs, duty of excise, cess and any other material statutory dues, as applicable, to the appropriate authorities.

There were no undisputed amounts payable in respect of Goods and Service Tax, provident fund, employees' state insurance, income-tax, duty of customs, duty of excise, cess and other material statutory dues, as applicable, in arrears as at March 31, 2025 for a period of more than six months from the date they became payable.

(c) The Company has utilised the money obtained by way of term loans during the year for the purpose for which they were obtained.

(d) According to the procedures performed by us, and on an overall examination of the standalone financial statements of the Company, we report that no funds raised on short-term basis have been used for long-term purposes by the Company.

Independent Auditor's Report

- (e) On an overall examination of the financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries, associates or joint ventures.
- (f) The Company has not raised loans during the year on the pledge of securities held in its subsidiaries, joint ventures or associate companies.
- (x) (a) The Company has not raised any moneys by way of initial public offer, further public offer (including debt instruments) during the year. Accordingly, reporting under clause 3(x)(a) of the Order is not applicable.
- (b) During the year, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) and hence, reporting under clause 3(x)(b) of the Order is not applicable.
- (xi) (a) No fraud by the Company and no material fraud on the Company has been noticed or reported during the year.
- (b) No report under sub-section (12) of Section 143 of the Act has been filed in Form ADT-4 as prescribed under Rule 13 of the Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year.
- (c) As represented to us by the management of the Company, there are no whistle blower complaints received by the Company during the year.
- (xii) In our opinion, the Company is not a Nidhi company. Accordingly, reporting under clause 3(xii) of the Order is not applicable to the Company.
- (xiii) In our opinion, the Company is in compliance with Section 177 and Section 188 of the Act with respect to applicable transactions with the related parties and the details of related party transactions have been disclosed in the standalone financial statements as required by the applicable accounting standards.
- (xiv) (a) In our opinion, the Company has an adequate internal audit system commensurate with the size and nature of its business.
- (b) We have considered, the internal audit reports for the year under audit, issued to the Company during the year and till date, in determining the nature, timing and extent of our audit procedures.
- (xv) In our opinion, during the year, the Company has not entered into non-cash transactions with directors or persons connected with its directors, and hence, provisions of section 192 of Act are not applicable to the Company.
- (xvi) (a) In our opinion, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clauses 3(xvi)(a), (b), and (c) of the Order is not applicable to the Company.
- (b) In our opinion, there is no core investment company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016). Hence, reporting under clause 3(xvi)(d) of the Order is not applicable to the Company.
- (xvii) The Company has not incurred cash losses during the financial year covered by our audit and the immediately preceding financial year.
- (xviii) There has been no resignation of the statutory auditors of the Company during the year.
- (xix) On the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the board of directors and management plans, and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that the Company is not capable of meeting its liabilities existing at the date of the balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- (xx) (a) There are no unspent amounts towards Corporate Social Responsibility (CSR) on other than ongoing projects requiring a transfer to a Fund specified in Schedule VII to the Act in compliance with the second proviso to sub-section (5) of Section 135 of the Act. Accordingly, reporting under clause 3(xx)(a) of the Order is not applicable.
- (b) In respect of ongoing projects, the Company has transferred unspent Corporate Social Responsibility (CSR) amount as at the end of the previous financial year, to a special account within a period of thirty days from the end of the financial year in compliance with the provisions of sub-section (6) of Section 135 of the Act.

Annexure B to the Independent Auditor's Report of even date on the Standalone Financial Statements of Ratnamani Metals and Tubes Limited

(Referred to in paragraph 2(f) under 'Report on other legal and regulatory requirements' section of our report of even date to the members of Ratnamani Metals and Tubes Limited)

Report on the internal financial controls with reference to the standalone financial statements under section 143(3)(i) of the Act

We have audited the internal financial controls over financial reporting of the Company as of March 31, 2025 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's responsibility for internal financial controls

The Company's management and Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ('the Guidance Note') issued by the Institute of Chartered Accountants of India ('the ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note issued by the ICAI and the SAs prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those SAs and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting with reference to the standalone financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting with reference to the standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting with reference to the standalone financial statements.

Meaning of internal financial controls over financial reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting with reference to these standalone financial statements includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of the standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the standalone financial statements.

Inherent limitations of internal financial controls over financial reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting with reference to the standalone financial statements and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

notes to standalone financial statements

for the Year Ended March 31 2025

1. CORPORATE INFORMATION:

Ratnamani Metals & Tubes Limited (the "Company") is a public company domiciled in India and incorporated under the provisions of the Companies Act, applicable in India. Its shares are listed on two stock exchanges in India. The registered office of the Company is located at 17, Rajmugat Society, Naranpura Char Rasta, Naranpura, Ahmedabad, Gujarat. The Company is engaged in the manufacturing of stainless steel pipes and tubes and carbon steel pipes at Kutch, Indrad and Chhatral in the state of Gujarat. The Company caters to both domestic and international markets.

The financial statements were authorized for issue in accordance with a resolution passed in Board Meeting held on 16th May 2025.

2. BASIS OF PREPARATION:

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards ("Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable to the standalone financial statements of the Company.

The financial statements have been prepared on a historical cost basis, except for certain financial assets and liabilities which have been measured at fair value (refer accounting policy regarding financial instruments) and derivative financial instruments.

The financial statements are presented in ₹ and all values are rounded to the nearest Lakhs (₹ 00,000), except where otherwise indicated.

2.1 SUMMARY OF MATERIAL ACCOUNTING POLICIES:

a. CURRENT VERSUS NON-CURRENT CLASSIFICATION:

The Company presents assets and liabilities in the Balance Sheet based on current/non-current classification.

An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in the normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in the normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The terms of the liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities respectively.

The operating cycle is the time between acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

b. FOREIGN CURRENCIES:

The Company's financial statements are presented in ₹, which is also the Company's functional currency. The Company determines the functional currency and items included in the financial statements are measured using that functional currency.

Transactions and balances

Transactions in foreign currencies are initially recorded in the Company's functional currency at the exchange rates prevailing on the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are restated in the functional currency at the exchange rates prevailing on the reporting date of financial statements.

Exchange differences arising on settlement of such transactions and on translation of monetary items are recognised in the Statement of Profit and Loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates on the dates of the initial transactions.

In determining the spot exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or non-monetary liability relating to advance consideration, the date of the transaction is the date on which the Company initially

notes to standalone financial statements

for the Year Ended March 31 2025

recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Company determines the transaction date for each payment or receipt of advance consideration.

c. FAIR VALUE MEASUREMENT:

The Company measures financial instruments, such as, derivatives at fair value at each Balance Sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the

hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Company's Management determines the policies and procedures for both recurring fair value measurement, such as derivative financial instruments and unquoted financial assets measured at fair value, and for non-recurring fair value measurement.

External valuers are involved for valuation of significant assets, such as unquoted financial assets. Involvement of external valuers is decided upon annually by the Management after discussion with and approval by the Company's Audit Committee. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained. The Management decides, after discussions with the Company's external valuers, which valuation techniques and inputs to use for each case.

At each reporting date, the Management analyses the movements in the values of assets and liabilities which are required to be remeasured or re-assessed as per the Company's accounting policies. For this analysis, the Management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

The Management, in conjunction with the Company's external valuers, also compares the change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above. This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- Disclosures for valuation methods, significant accounting judgements, estimates and assumptions (refer note 35 and 36)
- Quantitative disclosures of fair value measurement hierarchy (refer note 35.2)
- Financial instruments (including those carried at amortised cost) (refer note 35.1)

d. PROPERTY, PLANT AND EQUIPMENT (PPE):

PPE and Capital work in progress (CWIP) are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price and borrowing costs if capitalization criteria are met, the cost of replacing part of the property, plant and equipment and directly attributable cost of bringing the asset to its working condition for the intended use. Each

notes to standalone financial statements

for the Year Ended March 31 2025

part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately. This applies mainly to components for machinery. When significant parts of PPE are required to be replaced at intervals, the Company recognizes such parts as individual assets with specific useful lives and depreciates them accordingly. Likewise, when a major overhauling is performed, its cost is recognized in the carrying amount of the PPE as a replacement if the recognition criteria are satisfied. Any trade discounts and rebates are deducted in arriving at the purchase price.

Subsequent costs are included in Asset's carrying amount or recognised as separate Assets, as appropriate, only when it is probable that future economic benefit associated with the item will flow to the Company and the cost of item can be measured reliably. All other expenses on existing property, plant and equipment, including day-to-day repair and maintenance expenditure and cost of parts replaced, are charged to the Statement of Profit and Loss for the period during which such expenses are incurred.

CWIP comprises of cost of PPE that are yet not installed and not ready for their intended use at the Balance Sheet date.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if applicable.

The Company calculates depreciation on items of property, plant and equipment on a straight-line basis using the rates arrived at based on the useful lives defined under Schedule II of the Companies Act, 2013, except in respect of following fixed assets:

- (i) Long Term Lease hold land is amortised over a period of 99 years, being the lease term.
- (ii) Furnace and X-ray machines are depreciated at an annual rate of 20% to bring the depreciation rates in line with the useful life of assets as estimated by the Technical Team of the Company.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Statement of Profit and Loss when the asset is derecognised.

e. INTANGIBLE ASSETS:

Intangible Assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost, less any accumulated amortisation and accumulated impairment losses, if any.

Intangible assets in the form of software are amortised on a straight-line basis over six years. The amortisation period

and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the Statement of Profit and Loss.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Statement of Profit and Loss when the asset is derecognised.

f. BORROWING COSTS:

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

g. IMPAIRMENT OF NON-FINANCIAL ASSETS:

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used.

The Company bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Company's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent

notes to standalone financial statements

for the Year Ended March 31 2025

budgets/forecasts, the Company extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country or countries in which the entity operates, or for the market in which the asset is used.

h. LEASES:

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

Company as a lessor:

Leases in which the Company does not transfer substantially all the risk and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted on a straight-line basis over the lease term.

Company as a lessee:

I. Right-of-use assets

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

Assets	Estimated Useful Life
Right-of-use of office premises and leasehold land	Over the balance period of lease agreement

If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment. Refer to the accounting policies in relating to Impairment of non-financial assets.

II. Lease Liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease

term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable.

After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

III. Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases of machinery and equipment, offices and windmills (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value amounting to ₹2 Lakhs. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

i. FINANCIAL INSTRUMENTS:

A Financial instrument is any contract that gives rise to a financial asset of one entity and financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through Statement of Profit and Loss, transaction costs that are attributable to the acquisition of the financial asset.

notes to standalone financial statements

for the Year Ended March 31 2025

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Company's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient, are measured at the transaction price determined under Ind AS 115. Refer to the accounting policies in section 2.1(k) Revenue from contracts with customers.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in three categories:

- Financial assets instruments at amortised cost (debt instruments)
- Financial assets at fair value through other comprehensive income (FVTOCI)
- Financial assets at fair value through profit or loss (FVTPL) (Derivatives and Equity Instruments)

Financial assets at amortised cost (debt instruments)

A 'financial assets' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Company. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the Statement of Profit and Loss. The losses arising from impairment are recognised in the Statement of Profit and Loss. This category generally applies to trade, loans and other receivables.

Financial Assets at FVTOCI

Financial assets that meet the following conditions are measured initially as well as at the end of each reporting date at fair value, recognised in other comprehensive income (OCI).

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The contractual terms of the asset that give rise on specified dates to cash flows that represent solely payment of principal and interest.

Financial Assets at FVTPL

Financial assets at fair value through profit or loss are carried in the balance sheet at fair value with net changes in fair value recognised in the statement of profit and loss.

This category includes derivative instruments and investments in equity instruments which the Company had not irrevocably elected to classify at fair value through OCI. Dividends on such investments are recognised in the statement of profit and loss when the right of payment has been established.

Financial Assets included within the FVTPL category are measured at fair value with all changes recognized in the statement of Profit and Loss.

Investment in subsidiaries

Investment in subsidiaries are measured at cost less impairment as per Ind AS 27 - 'Separate Financial Statements'.

Impairment of investments:

The Company reviews its carrying value of investments carried at cost annually, or more frequently when there is indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is recorded in the Statement of Profit and Loss. When an impairment loss subsequently reverses, the carrying amount of the Investment is increased to the revised estimate of its recoverable amount, so that the increased carrying amount does not exceed the cost of the Investment. A reversal of an impairment loss is recognised immediately in Statement of Profit or Loss.

Equity investments

All equity investments in scope of Ind AS 109 are measured at fair value. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the other comprehensive income (OCI). There is no recycling of the amounts from OCI to Statement of Profit and Loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit and Loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of similar financial assets) is primarily

notes to standalone financial statements

for the Year Ended March 31 2025

derecognised (i.e. removed from the Company's Balance Sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Impairment of financial assets

Further disclosures relating to impairment of financial assets are also provided in the following notes:

- Disclosures for significant assumptions – see note 2.2
- Financial Assets at FVTPL – see note 2.1 (i)
- Trade receivables and contract assets – see note 6 and 2.1(k)

The Company recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk

since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For trade receivables and contract assets, the Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables.

Under the simplified approach the Company does not track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. Lifetime ECL are the expected credit losses resulting from all possible default over the expected life of a financial instrument.

The Company considers a financial asset in default when contractual payments are overdue. However, in certain cases, the Company may also consider a financial asset to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the Statement of Profit and Loss. This amount is reflected under the head 'other expenses' in the Statement of Profit and Loss.

The Balance Sheet presentation for various financial instruments is described below:

Financial assets measured at amortised cost:

ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the Balance Sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Company does not reduce impairment allowance from the gross carrying amount.

Financial liabilities & Equity Instruments

Classification as debt or equity

Financial liabilities and equity instruments issued by the Company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments are recorded at the proceeds received, net of direct issue costs.

notes to standalone financial statements

for the Year Ended March 31 2025

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through Statement of Profit and Loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including cash credit facilities from banks and derivative financial instruments.

Subsequent measurement

For purposes of subsequent measurement, financial liabilities are classified in two categories:

- Financial liabilities at fair value through profit or loss
- Financial liabilities at amortised cost (loans and borrowings)

Financial liabilities at fair value through Statement of Profit and Loss.

Financial liabilities at fair value through Profit and Loss include financial liabilities held for trading and financial liabilities designated upon initial recognition at fair value through Profit and Loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109.

Gains or losses on liabilities held for trading are recognised in the Statement of Profit and Loss.

Financial liabilities designated upon initial recognition at fair value through statement of Profit and Loss are designated as such at the initial date of recognition and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ loss are not subsequently transferred to Profit and Loss. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the Statement of Profit and Loss.

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest rate (EIR) method. Gains and losses are recognised in Statement of Profit and Loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Statement of Profit and Loss. This category generally applies to borrowings.

Financial guarantee contracts

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less cumulative amortisation.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

Reclassification of financial assets

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. Such changes are evident to external parties. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is a currently

notes to standalone financial statements

for the Year Ended March 31 2025

enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

j. INVENTORIES:

Inventories are valued at the lower of cost and net realisable value after providing for obsolescence and other losses, wherever considered necessary. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost of finished goods and work in progress include cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity but excluding borrowing costs. Scrap is valued at net realisable value. Cost is determined on a Weighted Average method.

Cost includes direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity, incurred in bringing them in their respective present location and condition.

Net realizable value is the estimated selling price in the ordinary course of business less estimated cost of completion and the estimated costs necessary to make the sale.

k. REVENUE:

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services.

The Company has generally concluded that it is the principal in its revenue arrangements, because it typically controls the goods or services before transferring them to the customer.

The specific recognition criteria described below must also be met before revenue is recognised.

i) Sale of Goods

Revenue from sale of goods is recognised at the point in time when control of the asset is transferred to the customer, generally on delivery of the goods. The normal credit term is 0 to 180 days upon delivery, usually backed by financial arrangements in some cases.

The Company considers whether there are other promises in the contract that are separate performance obligations to which a portion of the transaction price needs to be allocated. In determining the transaction price for the sale of goods, the Company considers the effects of variable consideration, the existence of significant financing components, noncash consideration, and consideration payable to the customer (if any). Revenue from the sale of goods is

measured at the amount of transaction price (net of variable consideration) allocated to the consideration received or receivable, net of GST, trade discounts & other taxes, adjustments for late delivery charges and material returned/rejected.

Variable Consideration

If the consideration in a contract includes a variable amount, the Company estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved. Some contracts for the sale of goods provide customers with a right of liquidated damages. The liquidated damages give rise to variable consideration.

The Company applies the practical expedient for short-term advances received from customers. That is, the promised amount of consideration is not adjusted for the effects of a significant financing component if the period between the transfer of the promised good or service and the payment is one year or less.

- ii) The Company accounts for pro forma credits, refunds of duty of customs or refunds of GST incentive receivables in the year of admission of such claims by the concerned authorities. Benefits in respect of Export Licenses are recognised on application. Export benefits are accounted for as other operating income in the year of export based on eligibility and when there is no uncertainty on receiving the same.
- iii) Dividend is recognised when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.
- iv) Interest Income is recognized on time proportion basis taking into account the amounts outstanding and the rates applicable. Interest income is included under the head "other income" in the Statement of Profit and Loss.
- v) Revenue from windmills is recognised on unit generation basis, in accordance with the terms of power purchase agreements.

Contract balances

Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

notes to standalone financial statements

for the Year Ended March 31 2025

Trade receivables

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in note (i) Financial instruments – initial recognition and subsequent measurement.

Contract liabilities (Advance from customers)

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities (advance from customers) are recognised as revenue when the Company performs under the contract.

I. RETIREMENT AND OTHER EMPLOYEE BENEFITS:

i) Employee benefits

Employee benefits include Provident Fund, Employee State Insurance scheme, Gratuity, Compensated absences and Share based payments.

Retirement benefits in the form of provident fund and superannuation fund are defined contribution plans. The Company has no obligation, other than the contributions payable to provident fund and superannuation fund. The Company recognises contribution payable to these funds as an expense, when an employee renders the related service.

In respect of gratuity liability, the Company operates defined benefit plan wherein contributions are made to a separately administered fund. The costs of providing benefits under this plan are determined on the basis of actuarial valuation at each reporting date being carried out using the projected unit credit method.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the Balance Sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to Statement of Profit and Loss in subsequent periods.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the Statement of Profit and Loss:

- Service costs comprising current service costs; and
- Net interest expense or income

The liability in respect of unused leave entitlement of the employees as at the reporting date is determined on the basis of an independent actuarial valuation carried out and the liability is recognized in the Statement of Profit and Loss. The Company presents the entire leave as a current liability in the Balance Sheet, since it does not have an unconditional right to defer its settlement for 12 months after the reporting date. Actuarial gain and loss is recognise in full in the period in which they occur in the Statement of Profit and Loss.

ii) Share based payments

The Company operates a equity settled, employee share based compensation plans, under which the Company receives services from employees as consideration for equity shares of the Company. The Company has granted stock options to its employees and employees of its subsidiary.

Equity settled share based payments to employees are measured at the fair value at the date of grant using an appropriate valuation model. Details regarding the determination of the fair value of equity settled share-based transactions are set out in note 27. The fair value, determined at the date of grant of the equity settled share-based payments, is expensed on a straight line basis over the vesting period, based on the company's estimate of equity instruments that will eventually vest, with a corresponding increase in equity. The increase in equity recognised in connection with share-based payment transaction is presented as a separate component in equity under "share-based payment reserve". The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting year has expired and the Company's best estimate of the number of equity instruments that will ultimately vest. At the end of each reporting year, the Company revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in statement of profit and loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the equity settled share based payment reserve.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

The expense relating to options granted to the employees of subsidiary is not cross charged to the

notes to standalone financial statements

for the Year Ended March 31 2025

subsidiary. Therefore, the fair value of the employees' services received by this subsidiary (determined by reference to the fair value of the options as at the Grant Date) is recognised as an 'investment in subsidiaries' with a corresponding increase in other equity.

m. TAXES:

Tax expense comprises of current income tax and deferred tax.

Current income tax:

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognised outside the Statement of Profit and Loss is recognised outside the Statement of Profit and Loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred Tax:

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable Profit and Loss.
- In respect of taxable temporary differences associated with investments in subsidiaries, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against the deductible temporary differences, except:

- When the deferred tax asset arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

- In respect of deductible temporary differences associated with investments in subsidiaries, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside the Statement of Profit and Loss is recognised outside the Statement of Profit and Loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

n. PROVISIONS AND CONTINGENT LIABILITIES:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the Statement of Profit and Loss net of any reimbursement.

Contingent liabilities exist when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company, or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required or the amount cannot be reliably estimated. Contingent liabilities are appropriately disclosed unless the possibility of an outflow of resources embodying economic benefits is remote.

o. DERIVATIVE FINANCIAL INSTRUMENTS:

Initial recognition and subsequent measurement

The Company uses derivative financial instruments, such as forward currency contracts and interest rate swaps, to

notes to standalone financial statements

for the Year Ended March 31 2025

hedge its foreign currency risks, interest rate, respectively. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to profit or loss, except for the effective portion of cash flow hedges, which is recognised in OCI and later reclassified to profit or loss when the hedge item affects profit or loss or treated as basis adjustment if a hedged forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability.

For the purpose of hedge accounting, hedges are classified as:

- Fair value hedges when hedging the exposure to changes in the fair value of a recognised asset or liability or an unrecognised firm commitment.
- Cash flow hedges when hedging the exposure to variability in cash flows that is either attributable to a particular risk associated with a recognised asset or liability or a highly probable forecast transaction or the foreign currency risk in an unrecognised firm commitment.
- Hedges of a net investment in a foreign operation.

At the inception of a hedge relationship, the Company formally designates and documents the hedge relationship to which the Company wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge. The documentation includes the company's risk management objective and strategy for undertaking hedge, the hedging/ economic relationship, the hedged item or transaction, the nature of the risk being hedged, hedge ratio and how the entity will assess the effectiveness of changes in the hedging instrument's fair value in offsetting the exposure to changes in the hedged item's fair value or cash flows attributable to the hedged risk. Such hedges are expected to be highly effective in achieving offsetting changes in fair value or cash flows and are assessed on an ongoing basis to determine that they actually have been highly effective throughout the financial reporting periods for which they were designated.

Cash flow hedges

The effective portion of the gain or loss on the hedging instrument is recognised in OCI in the cash flow hedge reserve, while any ineffective portion is recognised immediately in the statement of profit and loss. The Company uses forward currency contracts and interest rate swaps as hedges of its exposure to foreign currency risk in forecast transactions and firm commitments. The ineffective portion relating to foreign currency contracts is recognised in finance costs.

Amounts recognised as OCI are transferred to profit or loss when the hedged transaction affects profit or loss, such as when the hedged financial income or financial expense is recognised or when a forecast sale occurs.

If the hedging instrument expires or is sold, terminated or exercised without replacement or rollover (as part of the hedging strategy), or if its designation as a hedge is revoked, or when the hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss previously recognised in OCI remains separately in equity until the forecast transaction occurs or the foreign currency firm commitment is met.

p. EARNINGS PER SHARE:

Basic earnings per share are calculated by dividing the net profit for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

q. CASH AND CASH EQUIVALENT:

Cash and cash equivalents in the Balance Sheet comprise cash at banks and in hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of charges in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

r. CASH DIVIDEND:

The Company recognises a liability to make cash or non-cash distributions to equity holders of the Company when the distribution is authorised and the distribution is no longer at the discretion of the Company. As per the Companies Act, 2013, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

s. GOVERNMENT GRANTS:

Government grants are recognised where there is reasonable assurance that the grant will be received, and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset. When the Company receives grants of non-monetary assets,

notes to standalone financial statements

for the Year Ended March 31 2025

the asset and the grant are recorded at fair value amounts and released to profit or loss over the expected useful life in a pattern of consumption of the benefit of the underlying asset i.e. by equal annual instalments.

2.2 SIGNIFICANT ACCOUNTING ESTIMATES AND ASSUMPTIONS:

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Judgements

In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements:

Determining the lease term of contracts with renewal and termination options – Company as lessee.

The Company determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Company has several lease contracts that include extension and termination options. The Company applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Company reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate (e.g., construction of significant leasehold improvements or significant customisation to the leased asset).

Revenue from contracts with customers

The Company applied the following judgement that significantly affect the determination of the amount and timing of revenue from contracts with customers:

Determining method to estimate variable consideration and assessing the constraint.

Certain contracts with customers include Liquidated Damages that give rise to variable consideration. In

estimating the variable consideration, the Company is required to use either the expected value method or the most likely amount method based on which method better predicts the amount of consideration to which customer will be entitled. The Company determined that the expected value method is the appropriate method to use in estimating the variable consideration for revenue from contract with customer. The selected method that better predicts the amount of variable consideration was primarily driven by the number of volume thresholds contained in the contract with the customer. Before adjusting any amount of variable consideration in the transaction price, the Company considers whether the amount of variable consideration is constrained. The Company determined that the estimates of variable consideration are not constrained based on its historical experience, business forecast and the current economic conditions.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

Defined benefit plans (gratuity benefits)

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuation. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

The mortality rate is based on publicly available mortality tables for India. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates for India.

Further details about gratuity obligations are given in note 26.

notes to standalone financial statements

for the Year Ended March 31 2025

Useful Life of Property Plant & Equipment and Intangible assets

Property, Plant and Equipment and Intangible Assets are depreciated/amortised over their estimated useful life, after taking into account estimated residual value. Management reviews the estimated useful life and residual values of the assets annually in order to determine the amount of depreciation/amortisation to be recorded during any reporting period. The useful life and residual values are based on the Company's historical experience with similar assets and take into account anticipated technological changes. The depreciation/amortisation for future periods is revised if there are significant changes from previous estimates.

Fair value measurement for financial instruments

When the fair values of financial assets and financial liabilities recorded in the Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these

factors could affect the reported fair value of financial instruments. Refer note 34 and 35 for further disclosures.

2.3 RECENT ACCOUNTING PRONOUNCEMENTS:

The Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. During the year ended on March 31, 2025, MCA has notified Ind AS 117 – Insurance Contracts and amendments to Ind AS 116 – Leases, relating to sale and leaseback transactions, effective from April 1, 2024. The Company has assessed these amendments and determined that they do not have any significant impact on its financial statements.

On May 07, 2025, MCA notified the amendment in Ind AS 21-The Effects of Changes in Foreign Exchange Rates. These amendments aim to provide guidance on assessing whether a currency is exchangeable and on estimating the spot exchange rate when exchangeability is lacking. The amendments are effective from annual periods beginning on or after April 1, 2025. The Company is currently assessing the probable impact of these amendments on its financial statements.

26 Employee Benefits Expense (Contd...)

B. Defined benefit plans:

The Company operates gratuity plan in the nature of defined benefit plan wherein every employee is entitled to the benefit as per scheme of the Company, for each completed year of service. The same is payable on retirement or termination whichever is earlier. The benefit vests only after five years of continuous service. The gratuity plan is governed by the payment of Gratuity Act, 1972. The Company's gratuity plan is funded with Life Insurance Corporation of India and HDFC life.

The Company is exposed to the following risks:

Interest rate risk: A fall in the discount rate which is linked to the G.Sec. Rate will increase the present value of the liability requiring higher provision. A fall in the discount rate generally increases the mark to market value of the assets depending on the duration of asset.

Salary Risk: The present value of the defined benefit plan liability is calculated by reference to the future salaries of members. As such, an increase in the salary of the members more than assumed level will increase the plan's liability.

Investment Risk: The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. If the return on plan asset is below this rate, it will create a plan deficit. Currently, for the plan in India, it has a relatively balanced mix of investments in government securities and other debt instruments.

Asset Liability Matching Risk: The plan faces the ALM risk as to the matching cash flow. Since the plan is invested in lines of Rule 101 of Income Tax Rules, 1962, this generally reduces ALM risk.

Mortality risk: Since the benefits under the plan is not payable for life time and payable till retirement age only, plan does not have any longevity risk.

Concentration Risk: Plan is having a concentration risk as all the assets are invested with the insurance company and a default will wipe out all the assets. Although probability of this is very low as insurance companies have to follow stringent regulatory guidelines which mitigate risk.

27 Stock Option Plans :

The Company vide special resolution passed by the Shareholders at their meeting held on August 27, 2024 approved grant of up to 36,00,000 options in one or more tranches to eligible employees of the parent company and its subsidiary (collectively, "eligible employees") under Ratnamani Employees Stock Option Scheme "RMTL ESOS 2024". Nomination & Remuneration Committee of the Board of the parent company (the "Committee") administers the ESOS 2024 plan and grants stock options to eligible employees. The Committee determines which eligible employees will receive options, the number of options to be granted, the exercise price, the vesting period and the exercise period. The vesting period is determined for all options issued on the date of grant. In accordance with the Scheme, the Nomination & Remuneration Committee of the Company at its meeting held on 14.11.2024 granted 4,31,224 Employee Stock Options ("ESOS 2024") at an exercise price of ₹ 2,635/- per ESOS (priced at 25% discount on latest available closing market price of equity shares of the Company on 14.11.2024) with each Option exercisable into corresponding number of equity shares of face value of ₹ 2/- each fully paid-up to the eligible employees of the Company and subsidiary company. The vesting period is spread over a period of 5 years with 20% Options vesting each year from the first anniversary of the grant, subject to vesting conditions. All Options upon vesting shall be exercisable during the exercise period of 1 (One) year.

The Options granted under the plan shall vest as per the schedule determined by the Board/Committee. There are no other vesting conditions, apart from service condition. In the case of termination of employment by the Company, all options, vested or not, stand cancelled immediately. In case of voluntary resignation, all un-vested options stand cancelled.

Any remaining unvested Options (that have not vested in accordance with above) shall automatically lapse. The vesting date or conditions for vesting shall be specified in the option grant letter between each eligible employee and the Company, unless determined otherwise by the Board/ committee from time to time.

VI Method and assumptions used to estimate the fair value of options granted during the year

The fair value of services received in return for stock options granted to employees is measured by reference to the fair value of stock options granted. The fair value of stock options granted under the ESOS 2024 has been calculated using the Black Scholes Option Pricing model.

The estimated fair value of stock options is recognised in the statement of profit and loss on a straight-line basis over the requisite service period for each separately vesting portion of the award as if the award was in-substance multiple awards.

The Assumptions used in the model are as follows:

Particulars	ESOS 2024
1 Risk Free Interest Rate	6.52% - 6.71%
2 Expected Life (in years)	1.5 year to 5.5 year
3 Expected Volatility	30.38% - 31.72%
4 Dividend Yield	0.40%
5 Price of the underlying share in market at the time of the option grant (INR)	3,512.20

Note: The options are granted by the Company, and the grantees includes employee of subsidiary as well.

VII Assumptions

Stock Price: Closing price on National Stock Exchange one day prior to the date of grant has been considered

Expected Life: The expected life of the share options is based on historical data and current expectations and is not necessarily indicative of exercise patterns that may occur.

Volatility: The expected price volatility is based on the historic volatility, adjusted for any expected changes to future volatility due to publicly available information

Risk-free rate of return: The risk-free interest rate being considered for the calculation is the interest rate applicable for a maturity equal to the expected life of the options based on the zero-coupon yield curve for Government Securities

Exercise Price: Exercise Price of each specific grant has been considered.

Time to Maturity: Time to Maturity / Expected Life of options is the period for which the Company expects the options to be alive.

Expected dividend yield: Expected dividend yield has been calculated basis the last dividend declared by the company before the date of grant for one financial year.

a) Leases :-

Operating lease commitments — Company as lessee

The Company has entered into lease contracts for office premises, land and other properties on lease, with lease terms between one to ninety years. Generally, the Company is restricted from assigning and subleasing the leased assets. There are several lease contracts that include extension and termination options and variable lease payments, which are further discussed below.

The Company also has certain leases of office premises, land and other properties with lease terms of 12 months or less with low value. The Company applies the 'short-term lease' and 'lease of low-value assets' recognition exemptions for these leases.

Set out below are the carrying amounts of right-of-use assets recognised and the movements during the year.

Derivatives designated as hedging instruments

Cash flow hedges

Foreign currency risk:

Foreign exchange forward contracts are designated as hedging instruments in cash flow hedging against principal and interest repayment of external commercial borrowings. The foreign exchange forward contract balances vary with the level of expected foreign currency fluctuations and changes in foreign exchange forward rates.

The impact of the hedging instruments on the balance sheet is as follows:

Sr. No.	Particulars	31-03-2025	31-03-2025	31-03-2024	31-03-2024	Line item in the balance sheet
		Notional Amount (in Lakhs)	Carrying Amount (in Lakhs)	Notional Amount (in Lakhs)	Carrying Amount (in Lakhs)	
1	Currency and interest rate swaps	-	-	USD 13.03	147.80	Other financial Assets

The cumulative effective portion of gains or losses arising from changes in fair value of hedging instruments designated as cash flow hedges are recognised in cash flow hedge reserve. Such changes recognised are reclassified to the statement of profit and loss when the hedged item affects the profit or loss or are included as an adjustment to the cost of the related non-financial hedged item.

The Company has designated certain foreign currency forward contracts, interest rate swaps and interest rate caps and collars as cash flow hedges in respect of foreign exchange and interest rate risks.

35 Financial Instruments, Fair Value Measurements, Financial Risk and Capital Management (Contd...)

35.2 Category-wise Classification of Financial Instruments:

The financial instruments are categorised in to three levels, based on the inputs used to arrive at fair value measurement as described below :

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 — Inputs based on unobservable market data.

Valuation Methodology

Financial instruments are initially recognised and subsequently re-measured at fair value as described below :

The fair value of investment in quoted Mutual Funds is measured at quoted price/ NAV.

The derivatives are valued using valuation techniques, which employs the use of market observable inputs. The most frequently applied valuation techniques include forward pricing and swap models, using present value calculations. The models incorporate various inputs including the credit quality of counterparties, foreign exchange spot and forward rates, yield curves of the respective currencies, currency basis spreads between the respective currencies, interest rate curves and forward rate curves of the underlying commodity.

Fair value of put option is valued based on the valuation report

35 Financial Instruments, Fair Value Measurements, Financial Risk and Capital Management (Contd...)

(b) Financial Instrument measured at Amortised Cost

The management assessed that cash and cash equivalents, other bank balances, trade receivables, other financial assets, trade payables, bank overdrafts, investments and other current liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

36 Financial Instruments Risk Management Objectives and Policies

The Company's principal financial liabilities, other than derivatives, comprise borrowings, lease liabilities and trade & other payables. The main purpose of these financial liabilities is to finance the Company's operations and to support its operations. The Company's principal financial assets include investments, loans given, trade and other receivables and cash & term deposits that derive directly from its operations.

The Company's activities expose it to market risk, credit risk and liquidity risk. In order to minimise any adverse effects on the financial performance of the Company, derivative financial instruments, such as foreign exchange forward contracts are entered to hedge certain foreign currency exposures and interest rate swaps to hedge certain variable interest rate exposures. Derivatives are used exclusively for hedging purposes and not as trading / speculative instruments.

The Company's risk management is carried out by the corporate finance under policies approved by the Board of directors. The corporate finance identifies, evaluates and hedges financial risks in close co-operation with the Company's Business Heads. The board provides written principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments and investment of excess liquidity.

The corporate finance function reports quarterly to the Company's Audit committee, that monitors risks and policies framed to mitigate risk exposures.

(a) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as commodity risk. Financial instruments affected by market risk include borrowings, deposits, Investments, trade and other receivables, trade and other payables and derivative financial instruments.

The potential economic impact, due to these assumptions and current situation, is based on the occurrence of adverse / inverse market conditions and reflects estimated changes resulting from the sensitivity analysis. Actual results that are included in the Statement of Profit and Loss may differ materially from these estimates due to actual developments in the global financial markets.

i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is exposed to changes in market interest rates due to financing, investing and cash management activities. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long term debt obligations with floating interest rates and period of borrowings. The Company manages its interest rate risk by having a balanced portfolio of fixed and variable rate loans and borrowing. In certain cases the Company enters into interest rate swap contracts or interest rate future contracts to manage its exposure to changes in the underlying benchmark interest rates.

If interest rates had been 50 basis points higher and all other variables were held constant, the Company's profit and equity for the year ended March 31, 2025 would decrease by ₹ Nil Lakhs (March 31, 2024 : ₹ 21.13 Lakhs). This is mainly attributable to variable interest rates on long term borrowings.

ii) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate due to changes in foreign exchange rates. The Company enters into forward exchange contracts to hedge against its foreign currency exposures relating to the recognised underlying assets/liabilities and firm commitments. The Company does not enter into any derivative instruments for trading or speculative purposes.

36 Financial Instruments Risk Management Objectives and Policies (Contd...)

The carrying amounts of the Company's foreign currency denominated monetary items are as follows:

(₹ in Lakhs)

Currency	Liabilities		Assets	
	As at March 31, 2025	As at March 31, 2024	As at March 31, 2025	As at March 31, 2024
USD	38,069.43	5,109.65	33,894.72	15,503.27
EURO	775.70	535.05	17,548.48	9,278.77

The above table represents total exposure of the Company towards foreign exchange denominated assets and liabilities. The details of exposures hedged using forward exchange contracts are given as a part of note 34.

The Company is mainly exposed to changes in USD and EURO. The below table demonstrates the sensitivity to a 5% increase or decrease in the USD and EURO against INR, with all other variables held constant. The sensitivity analysis is prepared on the net unhedged exposure of the Company as at the reporting date. 5% represents management's assessment of reasonably possible change in foreign exchange rate.

iii) Other price risk

Other price risk is the risk that the fair value of a financial instrument will fluctuate due to changes in market traded price. Other price risk arises from financial assets such as investments in equity instruments and bonds. The Company is exposed to price risk arising mainly from investments in mutual funds recognised at FVTPL. As at March 31, 2025 the carrying value of such instruments recognised at FVTPL amounts to ₹ 17,949.99 Lakhs (March 31, 2024 ₹ 8,821.27 Lakhs). The details of such investments in mutual funds is given in note 4.

The management expects that the exposure to risk of changes in market rates of these mutual funds is minimal.

(b) Credit Risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks, foreign exchange transactions and other financial instruments. Credit risk arising from investment in mutual funds, derivative financial instruments and other balances with banks is limited and there is no collateral held against these because the counterparties are banks and recognised financial institutions with high credit ratings assigned by the international credit rating agencies.

Credit risk arising from trade receivables is managed in accordance with the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on an extensive evaluation and individual credit limits are defined in accordance with this assessment.

An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively.

Concentrations of Credit Risk form part of Credit Risk

During the year ended March 31, 2025, sales to a customer approximated ₹ 61,715.37 Lakhs (or 12.64% of net revenue) and during the year ended March 31, 2024, sales to such customer approximated ₹ 56,819.24 Lakhs (or 11.82% of net revenue). Accounts receivable from such customer approximated ₹ 22,721.86 Lakhs (or 17.58% of total receivables) at March 31, 2025 and ₹ 11,549.92 Lakhs (or 12.89% of total receivables) at March 31, 2024. A loss of this customer could significantly affect the operating results or cash flows of the Company.

The Company generally extends a credit period of 0 to 180 days.

(c) Liquidity risk

Liquidity risk is the risk that the Company may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The Company's objective is to, at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. The Company closely monitors its liquidity position and deploys a robust cash management system. It maintains adequate sources of financing including, debt and overdraft / credit facilities from both domestic and international banks at an optimised cost. It also enjoys strong access to domestic capital markets across equity.

37 Capital Management

For the purpose of the Company's capital management, capital includes issued capital and all other equity reserves attributable to the equity shareholders of the Company. The primary objective of the Company when managing capital is to safeguard its ability to continue as a going concern and to maintain an optimal capital structure so as to maximize shareholder value through efficient allocation of capital towards expansion of business, optimisation of working capital requirements and deployment of surplus funds into various investment options.

The Company estimates the amount of capital required on the basis of annual business and long term operating plans which includes capital and other strategic investments. In order to maintain or achieve an optimal capital structure, the Company allocates its capital for distribution as dividend or re-investment into business based on its long term financial plans.

As at 31st March, 2025, the Company meets its capital requirement through equity and borrowings from banks. The Company monitors its capital and debt on the basis of debt to equity ratio.

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of Ratnamani Metals and Tubes Limited (the "Holding Company"), and its subsidiaries (the Holding Company and the subsidiaries together referred to as the "Group") which comprise the consolidated Balance Sheet as at March 31, 2025, the consolidated Statement of Profit and Loss (including Other Comprehensive Loss), the consolidated Statement of Changes in Equity and the consolidated Statement of Cash Flows for the year then ended, and notes to the consolidated financial statements including a summary of material accounting policies and other explanatory information (hereinafter referred to as 'consolidated financial statements').

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 (the "Act"), in the manner so required, and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Group as at March 31, 2025 and its profit, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matter described below to be the key audit matter to be communicated in our report.

Sr. No.	Key Audit Matter	Auditor's Response
1.	Recoverability of Trade Receivables Year-end outstanding trade receivables represent balance outstanding from domestic and export customers. Trade receivables by nature carry certain risks in general which include overdue balances, customers in weaker economic and geopolitical environment, customer's ability to pay, provision in relation to expected credit loss, assessment of recovery process and compliance with risk management controls. Procedures to mitigate such risks include element of management judgement and are important to assess recoverability of trade receivables. Trade receivables has been considered a key audit matter in the audit due to size of the outstanding balances of trade receivables amounting to ₹ 1,26,509.79 lakh (Refer Note 06 of Consolidated Financial Statements)	Our Audit procedures included: ➤ Understood and tested on a sample basis the design and operating effectiveness of management control over the customer acceptance process, collection and the assessment of the recoverability of receivable. ➤ Tested on a sample basis the ageing of trade receivables at year end. ➤ In respect of material trade receivables, inspected relevant contracts and correspondence with the customers. ➤ In respect of material trade receivables balances which are past due, additional procedures were performed to evaluate their historical payment trends, terms & conditions of customer contracts, assessed whether the customers are experiencing financial difficulties and assessed expected credit loss assessment provided and impact considered by the management. ➤ Assessing the reasonability of judgments exercised and estimates made by management in recognition of these receivables and validating them with corroborating evidence. ➤ Compared the collateral in the nature of bank guarantee/letter of credits provided by customers. ➤ Obtained confirmations from customers on sample basis to support existence assertion of trade receivables. ➤ Evaluated the level of provisions made by management for trade receivables.

Independent Auditor's Report

Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

The Holding Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Board's Report including Annexures to the Board's Report, Management Discussion and Analysis, Business Responsibility and Sustainability Report, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements and our auditors' report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to communicate the matter to those charged with governance as required under SA 720 'The Auditors' responsibilities relating to other Information'. We have nothing to report in this regard.

Management's responsibility for the Consolidated Financial Statements

The Holding Company's management and Board of Directors are responsible for the matters stated in section 134(5) of the Act, with respect to the preparation of these consolidated financial statements that give a true and fair view of the financial position, financial performance, including total comprehensive income, changes in equity and cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Ind AS specified under section 133 of the Act and the rules thereunder, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management and Board of Directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable,

matters related to going concern and using the going concern basis of accounting unless management or Board of Directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The Board of Directors of the respective companies included in the Group are also responsible for overseeing the Group's financial reporting process.

Auditor's responsibilities for the audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the

Independent Auditor's Report

related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group of which we are the independent auditors and whose financial information we have audited, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, make it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements for the financial year ended March 31, 2025 and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

The accompanying consolidated financial statements includes the audited financial statements and other financial information in respect of:

- a) 1 (one) subsidiary, whose audited financial statements include total assets (before consolidation adjustments) of INR 32,251.52 lakh, total revenue (before consolidation adjustments) for the year ended March 31, 2025 INR 28,408.76 lakh, total profit after tax (before consolidation adjustments) for the year ended March 31, 2025 INR 1,006.70 lakh, total comprehensive income (before consolidation adjustments) for the year ended March 31, 2025 of INR 997.86 lakh and net cash inflow (before consolidation adjustments) of INR 1.44 lakh as at March 31, 2025, as considered in the consolidated financial statement which have been audited by its other auditor.

- (g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of sub-section (16) of Section 197 of the Act, as amended, we report that to the best of our information and according to the explanations given to us, remuneration paid by the Holding Company to its directors during the year is in accordance with the provisions of Section 197 of the Act.
- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- (i) The respective managements of Holding Company and its subsidiary have disclosed the impact of pending litigations on its financial position in its consolidated financial statements. Please refer Note No. 28(b).
- (ii) The Group has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts.
- (iii) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding Company.
- (iv) (a) The respective managements of the Holding Company and its subsidiaries which are companies incorporated in India have represented that, to the best of its knowledge and belief, no funds (which are material either individually or in aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Holding Company or its subsidiaries to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Holding Company or such subsidiaries ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- (b) The respective managements of the Holding Company and its subsidiaries which are companies incorporated in India have represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in aggregate) have been received by the Holding Company or its subsidiaries from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Holding Company or any of such subsidiaries shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
- (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances performed by us and that performed by the auditor of such subsidiary incorporated in India, nothing has come to our

Independent Auditor's Report

- or other auditors' notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11 of the Companies (Audit and Auditors) Rules, as provided in (a) and (b) above, contain any material misstatement.
- (v) The final dividend paid by the Holding Company during the year in respect of the same declared for the previous year is in accordance with section 123 of the Act to the extent it applies to payment of dividend.
- As stated in Note 10 to the consolidated financial statements, the Board of Directors of the Holding Company have proposed final dividend for the year which is subject to the approval of the members of the Holding Company at the ensuing Annual General Meeting. The dividend declared is in accordance with section 123 of the Act to the extent it applies to declaration of dividend.
- (vi) Based on our examination which included test checks, and as communicated by the respective auditor of one subsidiary, the Holding Company and its subsidiary companies incorporated in India have used accounting software for maintaining its books of account, which have a

feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the respective software.

Further, for the periods where audit trail (edit log) facility was enabled and operated throughout the year for the respective accounting software, we and respective auditor of the above referred subsidiary did not come across any instance of the audit trail feature being tampered with.

Additionally, the audit trail has been preserved by the Holding company and above referred subsidiary companies incorporated in India as per the statutory requirements for record retention.

2. With respect to the matters specified in paragraphs 3(xxi) and 4 of the Companies (Auditor's Report) Order, 2020 (the "CARO") issued by the Central Government in terms of Section 143(11) of the Act, to be included in the Auditor's report, according to the information and explanations given to us, and based on the CARO reports issued by us for the Holding Company and by the auditor of its subsidiary company included in the consolidated financial statements of the Holding Company, we report that there are no qualifications or adverse remarks in these CARO reports.

Annexure A to the Independent Auditor's Report of even date on the Consolidated Financial Statements of Ratnamani Metals and Tubes Limited

(Referred to in paragraph 1(f) under 'Report on other legal and regulatory requirements' section of our report of even date to the members of Ratnamani Metals and Tubes Limited)

Report on the internal financial controls with reference to the consolidated financial statements under section 143(3)(i) of the Act

We have audited the internal financial controls over financial reporting of the Holding Company as of March 31, 2025 in conjunction with our audit of the consolidated financial statements of the Holding Company and its subsidiaries which are companies incorporated in India (the Holding Company and its subsidiaries together referred to as "the Group") for the year ended on that date.

Management's responsibility for internal financial controls

The respective Board of Directors and managements of Holding Company and subsidiaries, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ('the Guidance Note') issued by the Institute of Chartered Accountants of India ('the ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Holding Company based on our audit. We conducted our audit in accordance with the Guidance Note issued by the ICAI and the SAs prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those SAs and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting with reference to the consolidated financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included

obtaining an understanding of internal financial controls over financial reporting with reference to the consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting with reference to the consolidated financial statements.

Meaning of internal financial controls over financial reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting with reference to these consolidated financial statements includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of the consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the consolidated financial statements.

Inherent limitations of internal financial controls over financial reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Independent Auditor's Report

Opinion

In our opinion, to the best of our information and according to the explanations given to us and based on the consideration of report of other auditor, the Group has, in all material respects, an adequate internal financial controls system over financial reporting with reference to the consolidated financial statements and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Other Matters

Our report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to consolidated financial statements of the Holding Company, in so far as it relates to the one subsidiary company, which is company incorporated in India, is based on the corresponding report of the auditor of such subsidiary incorporated in India.

Our opinion is not modified in respect of the above matter.

notes to consolidated financial statements

for the Year Ended March 31 2025

1. CORPORATE INFORMATION:

The consolidated financial statements comprise financial statements of Ratnamani Metals & Tubes Limited (the "Company") and its subsidiaries (collectively the "Group") for the year ended 31st March, 2025. The Company is a public Company domiciled in India and incorporated under the provisions of the Companies Act, applicable in India. Its shares are listed on two stock exchanges in India. The registered office of the Company is located at 17, Rajmugat Society, Naranpura Char Rasta, Naranpura, Ahmedabad, Gujarat. The Group is engaged in the manufacturing of stainless steel pipes and tubes, carbon steel pipes, precision quality forged & machined bearing races and pipe spools & auxiliary support systems. The Company caters to both domestic and international markets.

The consolidated financial statements were authorized for issue in accordance with a resolution passed in Board Meeting held on May 16, 2025.

2. BASIS OF PREPARATION:

The consolidated financial statements of the Group have been prepared in accordance with Indian Accounting Standards ("Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable to the consolidated financial statements of the Group.

The consolidated financial statements have been prepared on a historical cost basis, except for certain financial assets and liabilities which have been measured at fair value (refer accounting policy regarding financial instruments) and derivative financial instruments.

The consolidated financial statements are presented in ₹ and all values are rounded to the nearest lakhs (₹ 00,000), except where otherwise indicated.

2.1 SUMMARY OF MATERIAL ACCOUNTING POLICIES:

a. PRINCIPLES OF CONSOLIDATION :

The consolidated financial statements comprise the financial statements of the Company and entities controlled by the Company and its subsidiaries as at March 31, 2025.

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee).

- Exposure, or rights, to variable returns from its involvement with the investee, and

- The ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee;
- Rights arising from other contractual arrangements;
- The Group's voting rights and potential voting right;
- The size of the group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit and loss from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that group member's financial statements in preparing the consolidated financial statements to ensure conformity with the group's accounting policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the Company, i.e., year ended on March 31. When the end of the reporting period of the parent is different from that of a subsidiary, the subsidiary prepares, for consolidation purposes, additional financial information as of the same date as the financial statements of the parent to enable the

notes to consolidated financial statements

for the Year Ended March 31 2025

parent to consolidate the financial information of the subsidiary, unless it is impracticable to do so.

Consolidation procedure:

- Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the consolidated financial statements at the acquisition date.
- Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary.
- Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognised in assets, such as

inventory and fixed assets, are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS 12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

Profit or loss and each component of other comprehensive income are attributed to the equity holder of the parent of the Group and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The subsidiaries considered in the consolidated financial statements are:

Name of the Company	Country of Incorporation	% of Ownership interest as at	
		March 31, 2025	March 31, 2024
Ratnamani INC	United States of America	100%	100%
Ravi Technoforge Pvt. Ltd.	India	80.017%	53%
Ratnamani Finow Spooling Solutions Pvt. Ltd.	India	51%	51%
Ratnamani Middle East Pipe Trading-L.L.C-O.P.C.	UAE	100%	-
Ratnamani Trade EU AG	Switzerland	60%	-

b. BUSINESS COMBINATION AND GOODWILL:

Acquisition of subsidiaries and businesses are accounted for using the acquisition method. The consideration transferred in each business combination is measured at the aggregate of the acquisition date fair values of assets given, liabilities incurred by the Group to the former owners of the acquire and equity interests issued by the Group in exchange for control of the acquire. Acquisition related costs are recognised in the consolidated statement of profit and loss.

Goodwill arising on acquisition is recognised as an asset and measured at cost, being the excess of the consideration transferred in the business combination over the Group's interest in the net fair value of the identifiable assets acquired, liabilities assumed and contingent liabilities recognised. Where the fair value of the identifiable assets and liabilities exceed the cost of acquisition, after re-assessing the fair values of the net assets and contingent liabilities, the excess is recognised as capital reserve on consolidation.

Once control has been achieved, any subsequent acquisitions where the Group does not originally hold hundred percent interest in a subsidiary are treated as an acquisition of shares from non-controlling

shareholders. The identifiable net assets are not subject to further fair value adjustments and the difference between the cost of acquisition of the non-controlling interest and the netbook value of the additional interest acquired is adjusted in equity. Business combinations arising from transfer of interests in entities that are under common control are accounted for using the pooling of interest method. The difference between any consideration transferred and the aggregate historical carrying values of assets and liabilities of the acquired entity are recognised in shareholders' equity.

Goodwill:

Goodwill is initially recognised as an asset at cost and is subsequently measured at cost less any accumulated impairment losses.

For the purpose of impairment testing, goodwill is allocated to each of the Group's cash-generating units or groups of cash-generating units that are expected to benefit from the synergies of the combination. Cash generating units to which goodwill has been allocated are tested for impairment annually, or more frequently when there is an indication that the unit's value may be impaired. If the recoverable amount of the cash-generating unit is less than the carrying value of the

notes to consolidated financial statements

for the Year Ended March 31 2025

unit, the impairment loss is allocated first to reduce the carrying value of any goodwill allocated to the unit and then to the other assets of the unit in proportion to the carrying value of each asset in the unit.

An impairment loss recognised for goodwill is not reversed in a subsequent period. On disposal of a subsidiary, the attributable amount of goodwill is included in the determination of profit or loss on disposal.

c. CURRENT VERSUS NON-CURRENT CLASSIFICATION:

The Group presents assets and liabilities in the Balance Sheet based on current/non-current classification.

An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in the normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in the normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The terms of the liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities respectively.

The operating cycle is the time between acquisition of assets for processing and their realisation in cash and cash equivalents. The Group has identified twelve months as its operating cycle.

d. FOREIGN CURRENCIES:

The Group's consolidated financial statements are presented in ₹, which is also the Group's functional currency. The Group determines the functional

currency and items included in the consolidated financial statements are measured using that functional currency.

Transactions and balances

Transactions in foreign currencies are initially recorded in the Group's functional currency at the exchange rates prevailing on the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are restated in the functional currency at the exchange rates prevailing on the reporting date of financial statements.

Exchange differences arising on settlement of such transactions and on translation of monetary items are recognised in the Consolidated Statement of Profit and Loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates on the dates of the initial transactions.

In determining the spot exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or non-monetary liability relating to advance consideration, the date of the transaction is the date on which the Group initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Group determines the transaction date for each payment or receipt of advance consideration.

e. FAIR VALUE MEASUREMENT:

The Group measures financial instruments, such as, derivatives at fair value at each Balance Sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

notes to consolidated financial statements

for the Year Ended March 31 2025

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Group's Management determines the policies and procedures for both recurring fair value measurement, such as derivative financial instruments and unquoted financial assets measured at fair value, and for non-recurring fair value measurement.

External valuers are involved for valuation of significant assets, such as unquoted financial assets. Involvement of external valuers is decided upon annually by the Management after discussion with and approval by the Group's Audit Committee. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained. The Management decides, after discussions with the Group's external valuers, which valuation techniques and inputs to use for each case.

At each reporting date, the Management analyses the movements in the values of assets and liabilities which are required to be remeasured or re-assessed as per the Group's accounting policies. For this analysis, the

Management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

The Management, in conjunction with the Group's external valuers, also compares the change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- Disclosures for valuation methods, significant accounting judgements, estimates and assumptions (refer note 35 and 36)
- Quantitative disclosures of fair value measurement hierarchy (refer note 35.2)
- Financial instruments (including those carried at amortised cost) (refer note 35.1)

f. PROPERTY, PLANT AND EQUIPMENT (PPE):

PPE and Capital work in progress (CWIP) are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price and borrowing costs if capitalization criteria are met, the cost of replacing part of the property, plant and equipment and directly attributable cost of bringing the asset to its working condition for the intended use. Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately. This applies mainly to components for machinery. When significant parts of PPE are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly. Likewise, when a major overhauling is performed, its cost is recognized in the carrying amount of the PPE as a replacement if the recognition criteria are satisfied. Any trade discounts and rebates are deducted in arriving at the purchase price.

Subsequent costs are included in Asset's carrying amount or recognised as separate Assets, as appropriate, only when it is probable that future economic benefit associated with the item will flow to the Group and the cost of item can be measured reliably. All other expenses on existing property, plant

notes to consolidated financial statements

for the Year Ended March 31 2025

and equipment, including day-to-day repair and maintenance expenditure and cost of parts replaced, are charged to the Statement of Profit and Loss for the period during which such expenses are incurred.

CWIP comprises of cost of PPE that are yet not installed and not ready for their intended use at the Balance Sheet date.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if applicable.

The Group calculates depreciation on items of property, plant and equipment on a straight-line basis using the rates arrived at based on the useful lives defined under Schedule II of the Companies Act, 2013, except in respect of following fixed assets:

- (i) Long Term Lease hold land is amortised over a period of 99 years, being the lease term.
- (ii) Furnace and X-ray machines are depreciated at an annual rate of 20% to bring the depreciation rates in line with the useful life of assets as estimated by the Technical Team of the Group.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Statement of Profit and Loss when the asset is derecognised.

g. INTANGIBLE ASSETS:

Intangible Assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost, less any accumulated amortisation and accumulated impairment losses, if any.

Intangible assets in the form of softwares are amortised on a straight-line basis over six years. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the Statement of Profit and Loss.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between

the net disposal proceeds and the carrying amount of the asset and are recognised in the Statement of Profit and Loss when the asset is derecognised.

h. BORROWING COSTS:

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

i. IMPAIRMENT OF NON-FINANCIAL ASSETS:

The Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used.

The Group bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Group's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Group extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country or countries in which the entity operates, or for the market in which the asset is used.

notes to consolidated financial statements

for the Year Ended March 31 2025

j. LEASES:

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

Group as a lessor:

Leases in which the Group does not transfer substantially all the risk and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted on a straight-line basis over the lease term.

Group as a lessee:

I. Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

Assets	Estimated Useful Life
Right-of-use of office premises and leasehold land and P&M	Over the balance period of lease agreement

If ownership of the leased asset transfers to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment. Refer to the accounting policies in relating to Impairment of non-financial assets.

II. Lease Liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments

also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

III. Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of machinery and equipment, offices and windmills (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value amounting to ₹2 lakhs. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Group to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Group's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

k. FINANCIAL INSTRUMENTS:

A Financial instrument is any contract that gives rise to a financial asset of one entity and financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair

notes to consolidated financial statements

for the Year Ended March 31 2025

value through Statement of Profit and Loss, transaction costs that are attributable to the acquisition of the financial asset.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient, are measured at the transaction price determined under Ind AS 115. Refer to the accounting policies in section 2.1(l) Revenue from contracts with customers.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in three categories:

- Financial assets instruments at amortised cost (debt instruments)
- Financial assets at fair value through other comprehensive income (FVTOCI)
- Financial assets at fair value through profit or loss (FVTPL) (Derivatives and Equity Instruments)

Financial assets at amortised cost (debt instruments)

A 'financial assets' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Group. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the Statement of Profit and Loss. The losses arising from impairment are recognised in the Statement of Profit and Loss. This category generally applies to trade, loans and other receivables.

Financial Assets at FVTOCI

Financial assets that meet the following conditions are measured initially as well as at the end of each reporting date at fair value, recognised in other comprehensive income (OCI).

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The contractual terms of the asset that give rise on specified dates to cash flows that represent solely payment of principal and interest.

Financial Assets at FVTPL

Financial assets at fair value through profit or loss are carried in the balance sheet at fair value with net changes in fair value recognised in the statement of profit and loss.

This category includes derivative instruments and investments in equity instruments which the Group had not irrevocably elected to classify at fair value through OCI. Dividends on such investments are recognised in the statement of profit and loss when the right of payment has been established.

Financial Assets included within the FVTPL category are measured at fair value with all changes recognized in the consolidated statement of Profit and Loss.

Equity investments

All equity investments in scope of Ind AS 109 are measured at fair value. For all other equity instruments, the Group may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Group makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the other comprehensive income (OCI). There is no recycling of the amounts from OCI to Statement of Profit and Loss, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit and Loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Group's Balance Sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a

notes to consolidated financial statements

for the Year Ended March 31 2025

'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Impairment of financial assets

Further disclosures relating to impairment of financial assets are also provided in the following notes:

- Disclosures for significant assumptions – see note 2.2
- Financial Assets at FVTPL – see note 2.1 (k)
- Trade receivables and contract assets – see note 6 and 2.1(m)

The Group recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial

recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For trade receivables and contract assets, the Group follows 'simplified approach' for recognition of impairment loss allowance on trade receivables.

Under the simplified approach the Group does not track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. Lifetime ECL are the expected credit losses resulting from all possible default over the expected life of a financial instrument.

The Group considers a financial asset in default when contractual payments are overdue. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the Statement of Profit and Loss. This amount is reflected under the head 'other expenses' in the Statement of Profit and Loss.

The Balance Sheet presentation for various financial instruments is described below:

Financial assets measured at amortised cost:

ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the Balance Sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Group does not reduce impairment allowance from the gross carrying amount.

Financial liabilities & Equity Instruments

Classification as debt or equity

Financial liabilities and equity instruments issued by the Group are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments are recorded at the proceeds received, net of direct issue costs.

notes to consolidated financial statements

for the Year Ended March 31 2025

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through Statement of Profit and Loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables, loans and borrowings including cash credit facilities from banks and derivative financial instruments.

Subsequent measurement

For purposes of subsequent measurement, financial liabilities are classified in two categories:

- Financial liabilities at fair value through profit or loss
- Financial liabilities at amortised cost (loans and borrowings)

Financial liabilities at fair value through Statement of Profit and Loss.

Financial liabilities at fair value through Profit and Loss include financial liabilities held for trading and financial liabilities designated upon initial recognition at fair value through Profit and Loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109.

Gains or losses on liabilities held for trading are recognised in the Statement of Profit and Loss.

Financial liabilities designated upon initial recognition at fair value through statement of Profit and Loss are designated as such at the initial date of recognition and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ losses are not subsequently transferred to Profit and Loss. However, the Group may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the Statement of Profit and Loss.

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised

cost using the effective interest rate (EIR) method. Gains and losses are recognised in Statement of Profit and Loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Statement of Profit and Loss.

This category generally applies to borrowings.

Financial guarantee contracts

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less cumulative amortisation.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

Reclassification of financial assets

The Group determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Group's senior management determines change in the business model as a result of external or internal changes which are significant to the Group's operations. Such changes are evident to external parties. A change in the business model occurs when the Group either begins or ceases to perform an activity that is significant to its operations. If the Group reclassifies financial assets, it applies the reclassification

notes to consolidated financial statements

for the Year Ended March 31 2025

prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Group does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

I. INVENTORIES:

Inventories are valued at the lower of cost and net realisable value after providing for obsolescence and other losses, wherever considered necessary. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost of finished goods and work in progress include cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity but excluding borrowing costs. Scrap is valued at net realisable value. Cost is determined on a Weighted Average method.

Cost includes direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity, incurred in bringing them in their respective present location and condition.

Net realizable value is the estimated selling price in the ordinary course of business less estimated cost of completion and the estimated costs necessary to make the sale.

m. REVENUE:

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services.

The Group has generally concluded that it is the principal in its revenue arrangements, because it typically controls the goods or services before transferring them to the customer.

The specific recognition criteria described below must also be met before revenue is recognised.

i) Sale of Goods

Revenue from sale of goods is recognised at the point in time when control of the asset is transferred to the customer, generally on delivery of the goods. The normal credit term is 0 to 180

days upon delivery, usually backed by financial arrangements in some cases.

The Group considers whether there are other promises in the contract that are separate performance obligations to which a portion of the transaction price needs to be allocated. In determining the transaction price for the sale of goods, the Group considers the effects of variable consideration, the existence of significant financing components, noncash consideration, and consideration payable to the customer (if any). Revenue from the sale of goods is measured at the amount of transaction price (net of variable consideration) allocated to the consideration received or receivable, net of GST, trade discounts & other taxes, adjustments for late delivery charges and material returned/rejected.

Variable Consideration

If the consideration in a contract includes a variable amount, the Group estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved. Some contracts for the sale of goods provide customers with a right of liquidated damages. The liquidated damages give rise to variable consideration.

The Group applies the practical expedient for short-term advances received from customers. That is, the promised amount of consideration is not adjusted for the effects of a significant financing component if the period between the transfer of the promised good or service and the payment is one year or less.

- ii) The Group accounts for pro forma credits, refunds of duty of customs or refunds of GST incentive receivables in the year of admission of such claims by the concerned authorities. Benefits in respect of Export Licenses are recognised on application. Export benefits are accounted for as other operating income in the year of export based on eligibility and when there is no uncertainty on receiving the same.
- iii) Dividend is recognised when the Group's right to receive the payment is established, which is generally when shareholders approve the dividend.

notes to consolidated financial statements

for the Year Ended March 31 2025

- iv) Interest Income is recognized on time proportion basis taking into account the amounts outstanding and the rates applicable. Interest income is included under the head "other income" in the Statement of Profit and Loss.
- v) Revenue from windmills is recognised on unit generation basis, in accordance with the terms of power purchase agreements.

Contract balances

Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

Trade receivables

A receivable represents the Group's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in note (j) Financial instruments – initial recognition and subsequent measurement.

Contract liabilities (Advance from customers)

A contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities (advance from customers) are recognised as revenue when the Group performs under the contract.

n. RETIREMENT AND OTHER EMPLOYEE BENEFITS:

i) Employee benefits

Employee benefits include Provident Fund, Employee State Insurance scheme, Gratuity, Compensated absences and Share based payments.

Retirement benefits in the form of provident fund and superannuation fund are defined contribution plans. The Group has no obligation, other than the contributions payable to provident fund and superannuation fund. The Group recognises contribution payable to these funds as an expense, when an employee renders the related service.

In respect of gratuity liability, the Group operates defined benefit plan wherein contributions are

made to a separately administered fund. The costs of providing benefits under this plan are determined on the basis of actuarial valuation at each reporting date being carried out using the projected unit credit method.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the Balance Sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to Statement of Profit and Loss in subsequent periods.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Group recognises the following changes in the net defined benefit obligation as an expense in the Statement of Profit and Loss:

- Service costs comprising current service costs; and
- Net interest expense or income

The liability in respect of unused leave entitlement of the employees as at the reporting date is determined on the basis of an independent actuarial valuation carried out and the liability is recognized in the Statement of Profit and Loss. The Group presents the entire leave as a current liability in the Balance Sheet, since it does not have an unconditional right to defer its settlement for 12 months after the reporting date. Actuarial gain and loss is recognised in full in the period in which they occur in the Statement of Profit and Loss.

ii) Share based payments

The Group operates a equity settled, employee share based compensation plans, under which the Group receives services from employees as consideration for equity shares of the Company. The Group has granted stock options to its employees.

Equity settled share based payments to employees are measured at the fair value at the date of grant using an appropriate valuation model. Details regarding the determination of the fair value of equity settled share-based transactions are set out in note 27. The fair value, determined at the date of grant of the equity settled share-based payments, is expensed on a straight line basis

notes to consolidated financial statements

for the Year Ended March 31 2025

over the vesting period, based on the group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity. The increase in equity recognised in connection with share-based payment transaction is presented as a separate component in equity under "share-based payment reserve". The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting year has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. At the end of each reporting year, the Group revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in statement of profit and loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the equity settled share based payment reserve.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

o. TAXES:

Tax expense comprises of current income tax and deferred tax.

Current income tax:

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognised outside the Statement of Profit and Loss is recognised outside the Statement of Profit and Loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred Tax:

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or

liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable Profit and Loss.

- In respect of taxable temporary differences associated with investments in subsidiaries, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against the deductible temporary differences, except:

- When the deferred tax asset arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- In respect of deductible temporary differences associated with investments in subsidiaries, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside the Statement of Profit and Loss is recognised outside the Statement of Profit and Loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

p. PROVISIONS AND CONTINGENT LIABILITIES:

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of

notes to consolidated financial statements

for the Year Ended March 31 2025

a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the Statement of Profit and Loss net of any reimbursement. Contingent liabilities exist when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group, or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required or the amount cannot be reliably estimated. Contingent liabilities are appropriately disclosed unless the possibility of an outflow of resources embodying economic benefits is remote.

q. DERIVATIVE FINANCIAL INSTRUMENTS:

Initial recognition and subsequent measurement

The Group uses derivative financial instruments, such as forward currency contracts and interest rate swaps, to hedge its foreign currency risks, interest rate, respectively. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to profit or loss, except for the effective portion of cash flow hedges, which is recognised in OCI and later reclassified to profit or loss when the hedge item affects profit or loss or treated as basis adjustment if a hedged forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability.

For the purpose of hedge accounting, hedges are classified as:

- Fair value hedges when hedging the exposure to changes in the fair value of a recognised asset or liability or an unrecognised firm commitment.
- Cash flow hedges when hedging the exposure to variability in cash flows that is either attributable to a particular risk associated with a recognised asset or liability or a highly probable forecast transaction or the foreign currency risk in an unrecognised firm commitment.
- Hedges of a net investment in a foreign operation.

At the inception of a hedge relationship, the Group formally designates and documents the hedge

relationship to which the Group wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge. The documentation includes the Group's risk management objective and strategy for undertaking hedge, the hedging/ economic relationship, the hedged item or transaction, the nature of the risk being hedged, hedge ratio and how the entity will assess the effectiveness of changes in the hedging instrument's fair value in offsetting the exposure to changes in the hedged item's fair value or cash flows attributable to the hedged risk. Such hedges are expected to be highly effective in achieving offsetting changes in fair value or cash flows and are assessed on an on-going basis to determine that they actually have been highly effective throughout the financial reporting periods for which they were designated.

Cash flow hedges

The effective portion of the gain or loss on the hedging instrument is recognised in OCI in the cash flow hedge reserve, while any ineffective portion is recognised immediately in the statement of profit and loss. The Group uses forward currency contracts and interest rate swaps as hedges of its exposure to foreign currency risk in forecast transactions and firm commitments. The ineffective portion relating to foreign currency contracts is recognised in finance costs.

Amounts recognised as OCI are transferred to profit or loss when the hedged transaction affects profit or loss, such as when the hedged financial income or financial expense is recognised or when a forecast sale occurs.

If the hedging instrument expires or is sold, terminated or exercised without replacement or rollover (as part of the hedging strategy), or if its designation as a hedge is revoked, or when the hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss previously recognised in OCI remains separately in equity until the forecast transaction occurs or the foreign currency firm commitment is met.

r. EARNINGS PER SHARE:

Basic earnings per share are calculated by dividing the net profit for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

notes to consolidated financial statements

for the Year Ended March 31 2025

s. SEGMENT REPORTING:

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker reviews and assesses the financial performance and the makes the strategic decisions.

t. CASH AND CASH EQUIVALENT:

Cash and cash equivalents in the Balance Sheet comprise cash at banks and in hand and term deposits with an original maturity of three months or less, which are subject to an insignificant risk of charges in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Group's cash management.

u. CASH DIVIDEND:

The Group recognises a liability to make cash or non-cash distributions to equity holders of the Group when the distribution is authorised and the distribution is no longer at the discretion of the Group. As per the Companies Act, 2013, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

v. GOVERNMENT GRANTS:

Government grants are recognised where there is reasonable assurance that the grant will be received, and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset. When the group receives grants of non-monetary assets, the asset and the grant are recorded at fair value amounts and released to profit or loss over the expected useful life in a pattern of consumption of the benefit of the underlying asset i.e. by equal annual instalments.

2.2 SIGNIFICANT ACCOUNTING ESTIMATES AND ASSUMPTIONS:

The preparation of the Group's consolidated financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements:

Determining the lease term of contracts with renewal and termination options – Group as lessee

The Group determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Group has several lease contracts that include extension and termination options. The Group applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Group reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate (e.g., construction of significant leasehold improvements or significant customisation to the leased asset).

Revenue from contracts with customers

The Group applied the following judgement that significantly affect the determination of the amount and timing of revenue from contracts with customers:

Determining method to estimate variable consideration and assessing the constraint.

Certain contracts with customers include Liquidated Damages that give rise to variable consideration. In estimating the variable consideration, the Group is required to use either the expected value method or the most likely amount method based on which method better predicts the amount of consideration to which customer will be entitled. The Group determined that the expected value method is the appropriate method to use in estimating the variable consideration for revenue from contract with customer. The selected method that better predicts the amount of variable consideration was primarily driven by the number of volume thresholds contained in the contract with the customer. Before adjusting any amount of variable consideration in the transaction price, the Group considers whether the amount of variable consideration is constrained. The Group determined that the estimates of variable consideration are not constrained based on its historical experience, business forecast and the current economic conditions.

notes to consolidated financial statements

for the Year Ended March 31 2025

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

Defined benefit plans (gratuity benefits)

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuation. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

The mortality rate is based on publicly available mortality tables for India. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates for India.

Further details about gratuity obligations are given in note 25.

Useful Life of Property Plant & Equipment and Intangible assets

Property, Plant and Equipment and Intangible Assets are depreciated/amortised over their estimated useful life, after taking into account estimated residual value. Management

reviews the estimated useful life and residual values of the assets annually in order to determine the amount of depreciation/amortisation to be recorded during any reporting period. The useful life and residual values are based on the Group's historical experience with similar assets and take into account anticipated technological changes. The depreciation/amortisation for future periods is revised if there are significant changes from previous estimates.

Fair value measurement for financial instruments

When the fair values of financial assets and financial liabilities recorded in the Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments. Refer note 34 and 35 for further disclosures.

2.3 RECENT ACCOUNTING PRONOUNCEMENTS:

The Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. During the year ended on March 31, 2025, MCA has notified Ind AS 117 – Insurance Contracts and amendments to Ind AS 116 – Leases, relating to sale and leaseback transactions, effective from April 1, 2024. The Group has assessed these amendments and determined that they do not have any significant impact on its financial statements.

On May 07, 2025, MCA notified the amendment in Ind AS 21-The Effects of Changes in Foreign Exchange Rates. These amendments aim to provide guidance on assessing whether a currency is exchangeable and on estimating the spot exchange rate when exchangeability is lacking. The amendments are effective from annual periods beginning on or after April 1, 2025. The Group is currently assessing the probable impact of these amendments on its financial statements.

B. Defined benefit plans:

The Group operates gratuity plan in the nature of defined benefit plan wherein every employee is entitled to the benefit as per scheme of the Group, for each completed year of service. The same is payable on retirement or termination whichever is earlier. The benefit vests only after five years of continuous service. The gratuity plan is governed by the payment of Gratuity Act, 1972.

26 Employee Benefits Expense (Contd...)

The Group is exposed to the following risks:

Interest rate risk: A fall in the discount rate which is linked to the G.Sec. Rate will increase the present value of the liability requiring higher provision. A fall in the discount rate generally increases the mark to market value of the assets depending on the duration of asset.

Salary Risk: The present value of the defined benefit plan liability is calculated by reference to the future salaries of members. As such, an increase in the salary of the members more than assumed level will increase the plan's liability.

Investment Risk: The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. If the return on plan asset is below this rate, it will create a plan deficit. Currently, for the plan in India, it has a relatively balanced mix of investments in government securities, and other debt instruments.

Asset Liability Matching Risk: The plan faces the ALM risk as to the matching cash flow. Since the plan is invested in lines of Rule 101 of Income Tax Rules, 1962, this generally reduces ALM risk.

Mortality risk: Since the benefits under the plan is not payable for life time and payable till retirement age only plan does not have any longevity risk.

Concentration Risk: Plan is having a concentration risk as all the assets are invested with the insurance company and a default will wipe out all the assets. Although probability of this is very low as insurance companies have to follow stringent regulatory guidelines which mitigate risk.

27 Stock Option Plans :

The parent company vide special resolution passed by the Shareholders at their meeting held on 27th August, 2024 approved grant of up to 36,00,000 options in one or more tranches to eligible employees of the parent company and its subsidiary (collectively, "eligible employees") under Ratnamani Employees Stock Option Scheme "RMTL ESOS 2024". Nomination & Remuneration Committee of the Board of the parent company (the "Committee") administers the ESOS 2024 plan and grants stock options to eligible employees. The Committee determines which eligible employees will receive options, the number of options to be granted, the exercise price, the vesting period and the exercise period. The vesting period is determined for all options issued on the date of grant. In accordance with the Scheme, the Nomination & Remuneration Committee of the Company at its meeting held on 14.11.2024 granted 4,31,224 Employee Stock Options ("ESOS 2024") at an exercise price of ₹ 2,635/- per ESOS (priced at 25% discount on latest available closing market price of equity shares of the Company on 14.11.2024) with each Option exercisable into corresponding number of equity shares of face value of ₹ 2/- each fully paid-up to the eligible employees of the parent company and subsidiary company. The vesting period is spread over a period of 5 years with 20 % Options vesting each year from the first anniversary of the grant, subject to vesting conditions. All Options upon vesting shall be exercisable during the exercise period of 1 (One) year.

The Options granted under the plan shall vest as per the schedule determined by the Board/Committee. There are no other vesting conditions, apart from service condition. In the case of termination of employment by the Group, all options, vested or not, stand cancelled immediately. In case of voluntary resignation, all un-vested options stand cancelled.

Any remaining unvested Options (that have not vested in accordance with above) shall automatically lapse. The vesting date or conditions for vesting shall be specified in the option grant letter between each eligible employee and the Group, unless determined otherwise by the Board/ committee from time to time.

Summary of status of options granted

The position of the existing schemes is summarized as under:

VI Method and assumptions used to estimate the fair value of options granted during the year

The fair value of services received in return for stock options granted to employees is measured by reference to the fair value of stock options granted. The fair value of stock options granted under the ESOS 2024 has been calculated using the Black Scholes Option Pricing model.

The estimated fair value of stock options is recognised in the statement of profit and loss on a straight-line basis over the requisite service period for each separately vesting portion of the award as if the award was, in-substance, multiple awards.

The Assumptions used in the model are as follows:

Particulars	ESOS 2024
1 Risk Free Interest Rate	6.52% - 6.71%
2 Expected Life (in years)	1.5 year to 5.5 year
3 Expected Volatility	30.38% - 31.72%
4 Dividend Yield	0.40%
5 Price of the underlying share in market at the time of the option grant (INR)	3,512.20

Note: The options are granted by Company, and the grantees includes employee of subsidiary as well.

VII Assumptions

Stock Price: Closing price on National Stock Exchange one day prior to the date of grant has been considered

notes to consolidated financial statements

for the Year Ended March 31 2025

27 Stock Option Plans : (Contd...)

Expected Life: The expected life of the share options is based on historical data and current expectations and is not necessarily indicative of exercise patterns that may occur.

Volatility: The expected price volatility is based on the historic volatility adjusted for any expected changes to future volatility due to publicly available information

Risk-free rate of return: The risk-free interest rate being considered for the calculation is the interest rate applicable for a maturity equal to the expected life of the options based on the zero-coupon yield curve for Government Securities

Exercise Price: Exercise Price of each specific grant has been considered.

Time to Maturity: Time to Maturity / Expected Life of options is the period for which the Company expects the options to be alive.

Expected dividend yield: Expected dividend yield has been calculated basis the last dividend declared by the company before the date of grant for one financial year.

28 Commitments and Contingencies

a) Leases :-

Operating lease commitments — Group as lessee

The Group has entered into lease contracts for office premises, land, and other properties on lease, with lease terms between one to ninety years. Generally, the Group is restricted from assigning and subleasing the leased assets. There are several lease contracts that include extension and termination options and variable lease payments, which are further discussed below.

The Group also has certain leases of office premises, land and other properties with lease terms of 12 months or less with low value. The Group applies the 'short-term lease' and 'lease of low-value assets' recognition exemptions for these leases.

Set out below are the carrying amounts of right-of-use assets recognised and the movements during the year.

31 Segment Information

Considering the inter relationship of various activities of the business, the chief operational decision maker monitors the operating results of its business segment on overall basis. Segment performance is evaluated based on profit or loss and is measured consistently with profit or loss in the financial statements.

Segment revenue and results:

The expenses and income which are not directly attributable to any business segment are shown as unallocable expenditure (net of allocable income).

Segment Assets and Liabilities:

Segment assets include all operating assets used by the operating segment and mainly consist of property, plant and equipments, trade receivables, inventory and other operating assets. Segment liabilities primarily includes trade payable and other liabilities. Common assets and liabilities which can not be allocated to any of the business segment are shown as unallocable assets / liabilities.

Inter Segment transfer:

Inter Segment revenues are recognised at sales price. The same is based on market price and business risks. Profit or loss on inter segment transfer are eliminated at the Group level.

2	Forward Contracts (EURO Sale)	6,160.90	EURO 66.19	2,732.03	EURO 30.00	Hedging of foreign currency sale

Derivatives designated as hedging instruments

Cash flow hedges

Foreign currency risk:

Foreign exchange forward contracts are designated as hedging instruments in cash flow hedging against principal and interest repayment of external commercial borrowings. The foreign exchange forward contract balances vary with the level of expected foreign currency fluctuations and changes in foreign exchange forward rates.

The impact of the hedging instruments on the balance sheet is as follows:

Sr. No.	Particulars	March 31, 2025	March 31, 2025	March 31, 2024	March 31, 2024	Line item in the balance sheet
		Notional Amount (in Lakhs)	Carrying Amount (in Lakhs)	Notional Amount (in Lakhs)	Carrying Amount (in Lakhs)	
1	Currency and interest rate swaps	-	-	USD 13.03	147.80	Other financial Assets

The cumulative effective portion of gains or losses arising from changes in fair value of hedging instruments designated as cash flow hedges are recognised in cash flow hedge reserve. Such changes recognised are reclassified to the statement of profit and loss when the hedged item affects the profit or loss or are included as an adjustment to the cost of the related non-financial hedged item.

The Group has designated certain foreign currency forward contracts, interest rate swaps and interest rate caps and collars as cash flow hedges in respect of foreign exchange and interest rate risks.

35 Financial Instruments, Fair Value Measurements, Financial Risk and Capital Management (Contd...)

35.2 Category-wise Classification of Financial Instruments:

The financial instruments are categorised in to three levels, based on the inputs used to arrive at fair value measurement as described below :

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 — Inputs based on unobservable market data.

Valuation Methodology

Financial instruments are initially recognised and subsequently re-measured at fair value as described below :

The fair value of investment in quoted Mutual Funds is measured at quoted price/ NAV.

The derivatives are valued using valuation techniques, which employs the use of market observable inputs. The most frequently applied valuation techniques include forward pricing and swap models, using present value calculations. The models incorporate various inputs including the credit quality of counterparties, foreign exchange spot and forward rates, yield curves of the respective currencies, currency basis spreads between the respective currencies, interest rate curves and forward rate curves of the underlying commodity.

Fair value of put option is valued based on the valuation report

35 Financial Instruments, Fair Value Measurements, Financial Risk and Capital Management (Contd...)

(b) Financial Instrument measured at Amortised Cost

The management assessed that cash and cash equivalents, other bank balances, trade receivables, other financial assets, trade payables, bank overdrafts, investments and other current liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

36 Financial Instruments, Risk Management Objectives and Policies

The Group's principal financial liabilities, other than derivatives, comprise borrowings, lease liabilities and trade & other payables. The main purpose of these financial liabilities is to finance the Group's operations and to support its operations. The Group's principal financial assets include Investments, loans given, trade and other receivables and cash & term deposits that derive directly from its operations.

The Group's activities expose it to market risk, credit risk and liquidity risk. In order to minimise any adverse effects on the financial performance of the group, derivative financial instruments, such as foreign exchange forward contracts are entered to hedge certain foreign currency exposures and interest rate swaps to hedge certain variable interest rate exposures. Derivatives are used exclusively for hedging purposes and not as trading / speculative instruments.

The Group's risk management is carried out by the corporate finance under policies approved by the Board of directors. The corporate finance identifies, evaluates and hedges financial risks in close co-operation with the Group's Business Heads. The board provides written principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

The corporate finance function reports quarterly to the Company's Audit committee that monitors risks and policies framed to mitigate risk exposures.

(a) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as commodity risk. Financial instruments affected by market risk include borrowings, deposits, Investments, trade and other receivables, trade and other payables and derivative financial instruments.

The potential economic impact, due to these assumptions and current situation, is based on the occurrence of adverse / inverse market conditions and reflects estimated changes resulting from the sensitivity analysis. Actual results that are included in the Consolidated Statement of Profit and Loss may differ materially from these estimates due to actual developments in the global financial markets.

i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group is exposed to changes in market interest rates due to financing, investing and cash management activities. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's long term debt obligations with floating interest rates and period of borrowings. The Group manages its interest rate risk by having a balanced portfolio of fixed and variable rate loans and borrowing. In certain cases group enters into interest rate swap contracts or interest rate future contracts to manage its exposure to changes in the underlying benchmark interest rates.

If interest rates had been 50 basis points higher/lower and all other variables were held constant, the Group's profit and equity for the year ended 31st March, 2025 would (decrease)/increase by ₹ 21.07 Lakhs (31st March, 2024: ₹ 34.37 Lakhs). This is mainly attributable to variable interest rates on long term borrowings.

ii) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate due to changes in foreign exchange rates. The Group enters into forward exchange contracts to hedge against its foreign currency exposures relating to the recognised underlying assets/liabilities and firm commitments. The Group does not enter into any derivative instruments for trading or speculative purposes.

iii) Other price risk

Other price risk is the risk that the fair value of a financial instrument will fluctuate due to changes in market traded price. Other price risk arises from financial assets such as investments in equity instruments and bonds. The Group is exposed to price risk arising mainly from investments in mutual funds recognised at FVTPL. As at March 31, 2025 the carrying value of such instruments recognised at FVTPL amounts to ₹ 17,949.99 Lakhs (March 31, 2024 ₹ 8,871.32 Lakhs). The details of such investments in mutual funds is given in note 4.

The management expects that the exposure to risk of changes in market rates of these mutual funds is minimal.

(b) Credit Risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks, foreign exchange transactions and other financial instruments. Credit risk arising from investment in mutual funds, derivative financial instruments and other balances with banks is limited and there is no collateral held against these because the counterparties are banks and recognised financial institutions with high credit ratings assigned by the international credit rating agencies.

Credit risk arising from trade receivables is managed in accordance with the Group's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on an extensive evaluation and individual credit limits are defined in accordance with this assessment.

An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively.

(c) Liquidity Risk

Liquidity risk is the risk that the Group may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The Group's objective is to, at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. The Group closely monitors its liquidity position and deploys a robust cash management system. It maintains adequate sources of financing including, debt and overdraft / credit facilities from both domestic and international banks at an optimised cost. It also enjoys strong access to domestic capital markets across equity.

The table below summarises the maturity profile of the Group's financial liabilities based on contractual payments:

37 Capital Management

For the purpose of the Group's capital management, capital includes issued capital and all other equity reserves attributable to the equity shareholders of the Group. The primary objective of the Group when managing capital is to safeguard its ability to continue as a going concern and to maintain an optimal capital structure so as to maximize shareholder value through efficient allocation of capital towards expansion of business, optimisation of working capital requirements and deployment of surplus funds into various investment options.

The Group estimates the amount of capital required on the basis of annual business and long term operating plans which includes capital and other strategic investments. In order to maintain or achieve an optimal capital structure, the Group allocates its capital for distribution as dividend or re-investment into business based on its long term financial plans.

41 Goodwill

The Group has identified its reportable segments, i.e. Steel Tubes and Pipes, Bearing Rings, Pipe Spools and Auxiliary Support Systems. The goodwill acquired through business combinations have been allocated to cash generating units (CGUs), Bearing Rings and Steel Tubes and Pipes. The carrying amount of goodwill is as under:

(₹ in Lakhs)

Goodwill	As at	
	March 31, 2025	March 31, 2024
Bearings Rings	1,863.97	1,863.97
Steel Tubes and Pipes	387.71	-
Total	2,251.68	1,863.97

Below is the reconciliation of the carrying amount of goodwill :

(₹ in Lakhs)

Particulars	As at	
	March 31, 2025	March 31, 2024
Carrying value at the beginning of the year	1,863.97	1,863.97
Movement during the year :		
Amount recognised through business combination (Refer note 39)	387.71	-
Carrying value at the end of the year	2,251.68	1,863.97

The Group tests goodwill on an annual basis or based on an indicator. Based on the annual impairment test no provision towards impairment was required necessary. The recoverable amount is determined based on value in-use calculations which is calculated as the net present value of forecasted cash flows of the cash generating unit (CGU) to which the goodwill is related.

The key assumptions for CGUs with significant amount of goodwill as follows:

- Projected cash flows for three years based on financial budgets/forecasts in line with the past experience. The perpetuity value and terminal value is taken based on the long-term growth rate depending on macro-economic growth factors.
- Discount rate applied to projected cash flow is 14.85%.

The Management, on the basis of above assumptions, believes that any reasonable possible change in the key assumptions on which a recoverable amount is based would not cause the carrying amount to exceed its recoverable amount of the CGU.

42 The code of Social Security, 2020 ('Code') relating to employee benefits during the employment and post-employment received Presidential assent in September, 2020 and its effective date is yet to be notified. The Ministry of Labour and Employment has released draft rules for the Code on Social Security, 2020 on November 13, 2020, and has invited suggestions from stakeholders which are under active consideration by the Ministry. The Group will assess the financial impact once the subject rules are notified and will give appropriate impact in its financial statements in the period in which, the Code becomes effective.

43 Events After the Reporting Period

The Group evaluates events and transactions that occur subsequent to the Balance Sheet date but prior to the approval of the financial statements to determine the necessity for recognition and/or reporting of any of these events and transactions in the financial statements. As of May 16, 2025, other than those disclosed and adjusted elsewhere in these financial statements, there were no further subsequent events to be reported or recognised.

Based on the recommendation of the Audit Committee, the Board recommends the **Ordinary Resolution** set out at Item No.5 of the Notice for approval by the Members.

Item No.6

In order to augment long term resources for financing *inter-alia* the on-going capital expenditure, working capital requirement and for general corporate purpose, if required, the Company may borrow, including by issue of Unsecured/Secured Redeemable Non-Convertible Debentures / Bonds (“NCDs”) on private placement basis, as may be appropriate and as specified in the approvals, from Indian markets.

The Board has at its meeting held on May 16, 2025, recommended to the Members to give their consent to the Board of Directors or any Committee of the Board to borrow and raise funds by issue of NCDs on private placement basis, up to an amount of ₹ 500 Crores (Rupees: Five Hundred Crores) under Section 42 and 71 read with Section 179 of the Companies Act, 2013. Such issue shall be subject to overall borrowing limits of as approved by Members from time to time and will be issued in terms of the provisions of the Companies Act, 2013, Articles of Association of the Company and Securities and Exchange Board of India (Issue and Listing of non-convertible Securities) Regulations, 2021, as amended (the “SEBI Regulations”) and other applicable laws. The overall amount which may be raised through Unsecured / Secured Redeemable NCDs / Bonds and/or any combination thereof shall not exceed ₹ 500 Crores during the next one year.

Pursuant to Section 42 and 71 of the Companies Act, 2013 read with Rule 14 of Companies (Prospectus and Allotment of Securities) Rules, 2014, as amended, a Company offering or making an invitation to subscribe to NCDs/Bond on a private placement basis is required to obtain prior approval of the Shareholders by way of the special resolution. For NCDs/Bonds, it shall be sufficient if the Company passes a previous special resolution only once in a year for all the offers or invitations for such NCDs/Bonds to be made during the year. Accordingly, it is proposed to raise funds through Private Placement of NCDs/ Bonds in one or more series

/ tranches during a year starting from the date of approval of special resolution by the Shareholders of the Company. Such NCDs/Bonds shall be issued to such person or persons, who may or may not be the members of the Company, as the Board or any duly constituted Committee of the Board or such other authority as may be approved by the Members / Board, may think fit and proper.

The resolutions contained in Item No.6 of the accompanying Notice, accordingly, seek Members approval as enabling resolution for raising funds through Private Placement of NCDs/ Bonds in one or more tranches during a year starting from the date of approval of special resolution by the members of the Company and authorizing the Board of Directors (or any duly constituted Committee of the Board or such other authority as may be approved by the Board) of the Company to complete all the formalities in connection with the issue of NCDs/Bonds.

The borrowing limits (apart from temporary loans obtained from the Company’s Bankers in the ordinary course of business) approved by the Members under Section 180(1)(c) of the Companies Act, 2013 vide the resolution dated September 11, 2014, is ₹ 1,000 Crores over and above the paid-up share capital and Free Reserves for the time being of the Company. Pursuant to Section 180(1)(a) of the Companies Act, 2013, the Company has authorised the Board *inter-alia* to provide security for amounts borrowed by creating charge on the assets of the Company in favour of lenders to the extent of ₹ 3,000 Crores. The approval is sought for funds to be raised by way of including but not limited to private placement of NCDs / Bonds in one or more series / tranches shall be within the overall borrowing limits of the Company.

None of the Directors and/or Key Managerial Personnel of the Company and their respective relatives are concerned or interested, financially, or otherwise, in the resolution set out at Item No.6 of the accompanying the Notice.

The Board recommends the **Special Resolution** set out at Item No.6 of the Notice for approval by the Members.
